Ready-to-eat response

Food assistance situation

Current operations:

- GFD in-kind (11.5kg) and RRR (2.9kg) distributions: one food basket per person per month
- Priority to the newly accessible areas
- Logistics to provide non-perishable food to the beneficiaries

Challenges for the beneficiaries:

- Energy shortage for cooking
- Lack of drinkable water
- Accessibility to the rural areas because of the winter conditions and hostilities
- Delays in supply chain because of imported goods

Winterization proposal: Ready-to-eat

Nutritive details:

- 350g per portion for one person per day
- Energy value from 609 Kcal to 1081 Kcal, depending the type of filling
- 8 different references

Technical details:

- Hermetically sealed plastic package with shelf life of 2 years without preservatives
- No specific storage conditions, no cold chain needed
- Local producers (Kyiv, Odesa, Dnipro) to local distribution

Retourner à la page Programme
