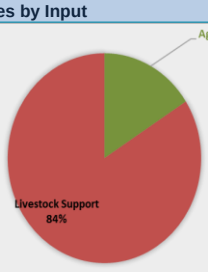
Strategic Objective 3 Update

Tractor Ploughing land in Somalia. (Humanitarian Blogs, 27th April 2016)

FSC partners scaled up Livestock Assets Protection and Seasonal Inputs Support in November. They collectively assisted 339, 635 beneficiaries in November and increased the level of support to 2,739,393 million beneficiaries cumulatively since the dyer season started (80% of the seasonal target). FAO accounts for 73% of the response under this objective followed by save the children and Nomadic Assistance for peace and development (11 % each)

The livestock assets protection support account for 60 % of the beneficiaries supported in this response objective. Livestock feed/fodder distribution (rangeland cubes) and livestock treatment were the main activities of the livestock asset protection. The distribution of agricultural input, land preparation support with tractor hour's account for about 40% of beneficiaries support in November.

Beneficiaries by Input

Beneficiary Numbers


- 435,824 assisted — Agricultural Inputs
- 2,302,123 assisted — Livestock Support
