

SOUTH SUDAN
**Food Security &
Livelihoods Cluster**
Strengthening Humanitarian Response

*FSL cluster meeting, 30th
May 2018*

**FSL cluster meeting: new
ICWG prioritization
process & other business**

Agenda

1. Seed distribution (FAO)
2. New ICWG prioritization process (FSL-C)
3. FSL Cluster update:
 - GBV capacity assessment survey & Action plan (FSL-C)
 - Change in cluster meeting schedule (alternate Wednesdays of the month)
4. AOBs:
 - Ebola advisory
 - NRC (TVET experience)

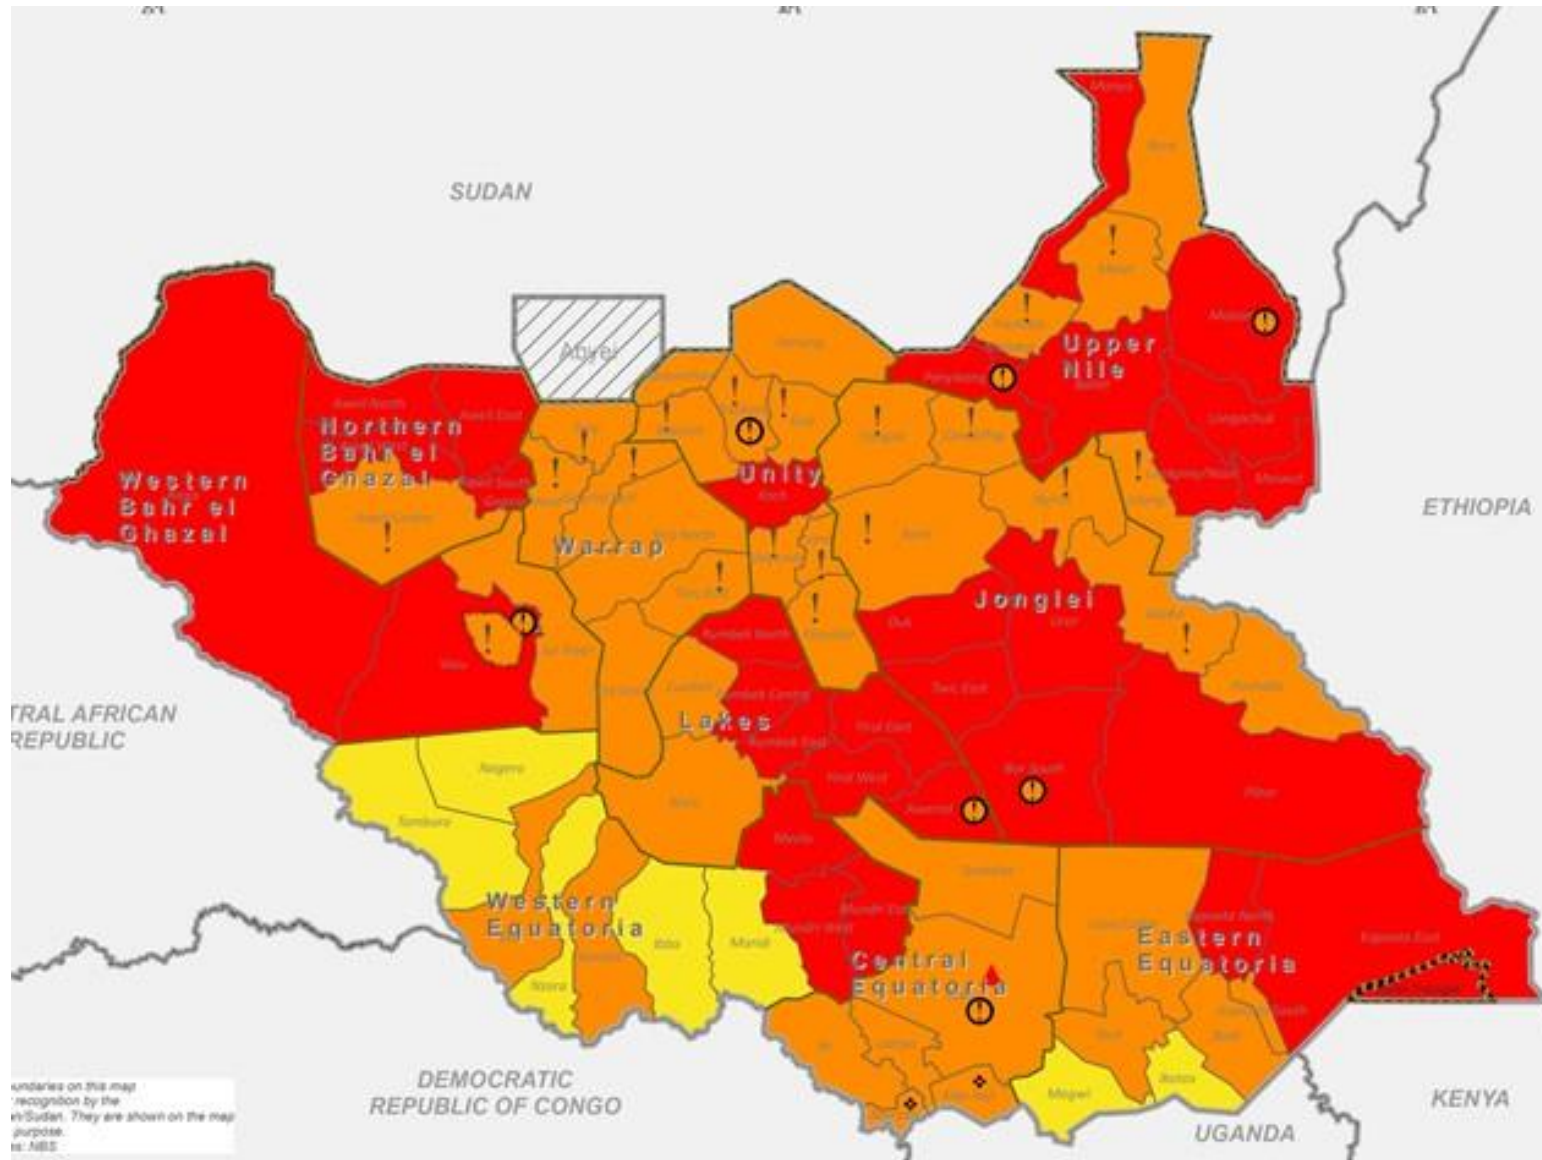

Food security crisis: FSLC prioritization in 2018 based on IPC analyses

Planned response: A larger proportion of the current response is already planned (in many cases based on the IPC updates) and being implemented by both static partners on the ground and WFP air drops;

Crisis response: the ICWG prioritization process supports other rapid response actors: ICRC, joint WFP/ UNICEF/ FAO rapid response missions, ECHO funded rapid responders etc.

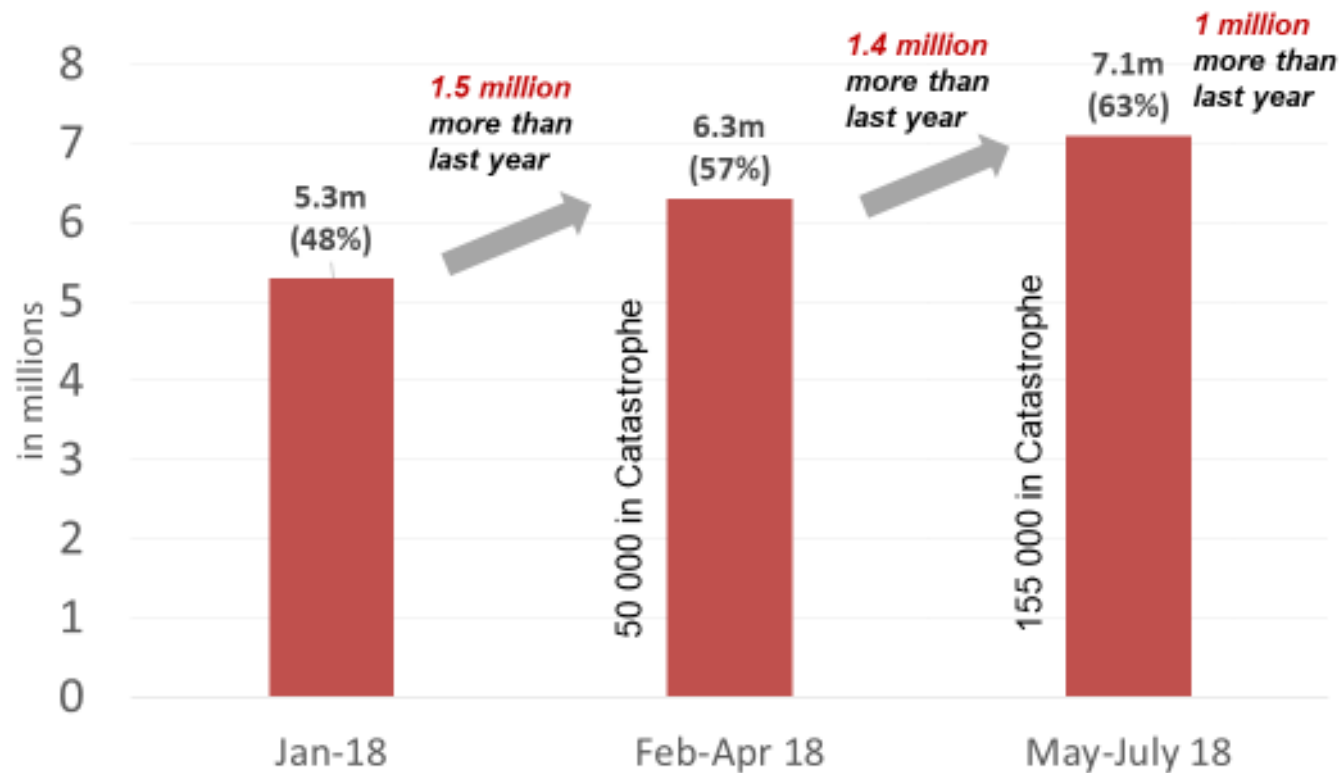

- It is largely therefore focused on the smaller proportion of unplanned responses requiring an adjustment to changes in context such as conflict/ displacement/ partner capacity gaps/ pipeline breaks etc.

IPC January 2018 analysis: projection for May – July 2018

IPC January 2018 analysis: progressive worsening!

Feb. 2018 IPC findings: Millions of people facing severe food insecurity (IPC Phase 3 or worse)

IPC January 2018 analysis: 11 counties with IPC 5 populations by projection II May - July

Counties in Jonglei	Counties in Unity	Counties in WBEG & Upper Nile
Ayod – 26,000	Koch – 12,000	
Fangak – 9,000	Leer – 21,000	Wau – 3,000
Nyirrol – 26,000	Mayendit – 13,000	Longochuk – 4,000
Pibor – 10,000	Panyijar – 9,000	
Uror – 20,000		
Total = 91,0000	Total = 55,000	Total = 7,000

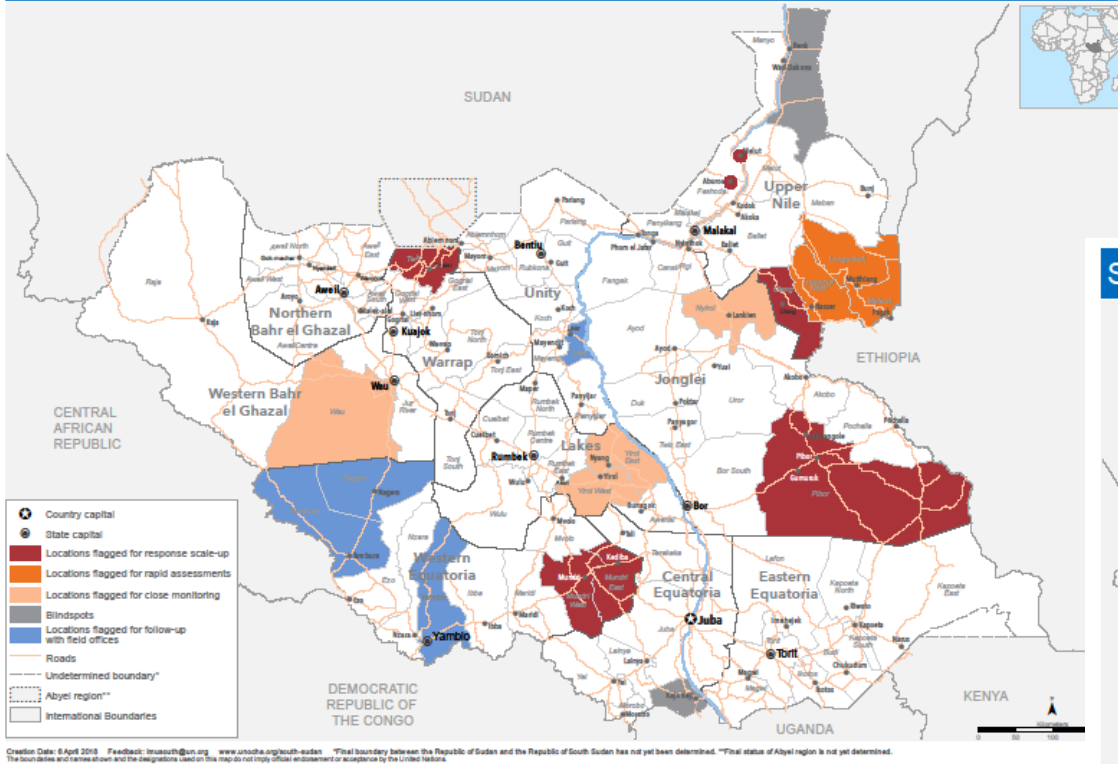

Crisis response and updating information between IPC analyses

- Need assessment updates from partners → IPC review + WFP/ FAO emergency response teams + OCHA & REACH analysis & action
- Operational working groups within FAO, WFP, UNICEF and ICRC And no doubt others
- New **Inter Cluster prioritization process**:
 1. Needs Assessment Working Group – bigger picture & areas of concern
 2. ICWG – decision on response or rapid assessment
 3. Operational Working Group – with Emergency Response Teams and cluster partners – who will do it & when

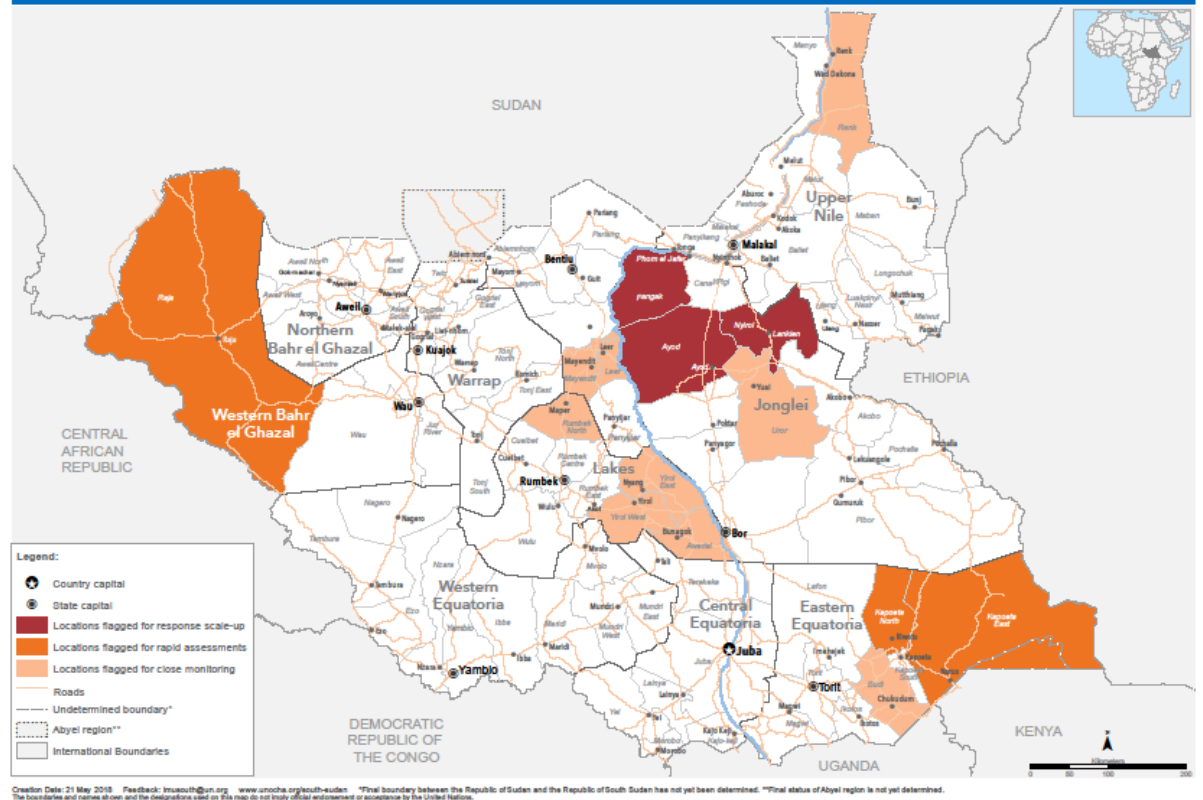

All in close collaboration & coordination with other responders

Output from the April & May process

South Sudan: Need assessment map - April 2018

South Sudan: Need analysis map - 21 May 2018_Draft

Areas of concern – EWS triggers

- Few partners and insufficient planned humanitarian assistance
- Increase in IDPs as a result of a shock e.g. from Leer & North Mayendit currently
- Places without access: rains or conflict affected (limited service delivery)
- 2016/ 2017 movement of armed combatants into the Equatoria food basket locations
- GAM rates/ disease outbreaks
- Distress generated cattle raiding etc.

Process to help ensure that we are collectively looking out to respond to OR prevent famine/ severe food insecurity

Analysis of regional ‘hot spots’:

- Central Unity
- Pibor/ Boma – Kapoeta East
- Nyirol/ Uror
- WBEG: Baggari
