The **Food Security and Livelihoods Cluster (FSLC)** was established in December 2014 and is led by the Food and Agriculture Organization (FAO) and the World Food Programme (WFP). The FSLC coordinates the food security and livelihoods response for more than 500 partners since Russia's full-scale invasion on 24 February 2022.

Response Under HRP 2023 More than 10 million people received food assistance in 2022. Humanitarian needs in areas where ongoing hostilities continue to escalate are increasing. Food insecurity is driven by the war, loss of livelihood opportunities, poverty levels, lack of access to food, and displacement. The number of people in need of food assistance is defined as those who are severely and moderately food insecure.
