

Prevalence of Acute Malnutrition (Weight-for-Height) Northeast Nigeria, July- August 2017

Global Acute Malnutrition (0 to 59 months)

* Prevalence of acute malnutrition was measured at the domain level (ex. Southern Borno) not at LGA level (included for reference)

This survey was carried out by the National Bureau of Statistics (NBS) in coordination with the National Population Commission (NPopC), the Federal Ministry of Health (FMOH), and the Nigerian Nutrition in Emergency Working Group (NIEWG). Financial support was provided by the Government of Nigeria, United Nations Children's Fund (UNICEF), and the United Nations Central Emergency Response Fund (CERF). Technical support was provided by the Centers for Disease Control and Prevention (CDC) and UNICEF through NBS.
