

FSC Targeting

The target for each district/region shown on this map can be considered as an "indicative" monthly target. FSC calculates it based on the population figures given for the IPC phases as assessed by the FSNAU. For strategic objective two (Livelihood Assets), the target includes: 50 percent of IDPs; and the rural and urban populations in IPC phase 2 (Stressed). Partners should treat these target figures as indicative but it does not prevent them from going beyond the target if the local context warrants it.
