

World Food Programme

WFP South Sudan

Situation Report #184

8 July 2017

In Numbers

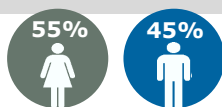

- 3.4 million** people assisted by WFP (2017)
- 2 million** internally displaced people (OCHA)
- 1.8 million** South Sudanese refugees (UNHCR)
- 216,956** seeking shelter with the UN (UNMISS)
- 6 million** people facing severe food insecurity from June to July 2017 (IPC, June 2017)

Highlights

- WFP is in the process of deploying Emergency Response Coordinators under four Sub Offices in traditionally non-conflict affected states to support its seasonal emergency response.
- First Resilience Platform meeting in Lakes State to increase strategic coordination amongst stakeholders and sectors on resilience building programmes.

GENDER MARKER 2A EMOP 200859

Global Humanitarian Funding

Overall:
USD 1.64 billion
WFP share:
USD 774.1 million

WFP 6-month Net Funding Requirements (July—December 2017)

Emergency Operation (EMOP 200859)	USD 115.5 million
Protracted Relief & Recovery Operation (PRRO 200572)	USD 42.9 million
Logistics Cluster	USD 8.4 million
UNHAS	USD 8.5 million

Situation Update

- WFP, in collaboration with the Government of the Republic of South Sudan, FAO, UNICEF, UNDP and other agencies, is rolling out Resilience Platforms in areas where food assistance for assets (FFA) programs are implemented. The first meeting of the resilience platform took place on 7 July in Rumbek, Lakes state. Meetings have also taken place in Abyei, Western Equatoria and Northern Bahr el Ghazal. These multi-sectoral platforms are designed as a primary coordination structure among agencies, NGO partners, and Government for programmes that contribute to building resilience. This broad based multi-sector, multi-partner form of coordination will enable better alignment of programmes and will strengthen the impacts for communities.
- So far, WFP's provided 126,000 primary school children with deworming tablets as part of the school meals programme across South Sudan. Distribution of deworming tablets to an additional 104,500 children is ongoing in Eastern Equatoria, Jonglei, Lakes, Unity and Upper Nile states. One objective of combining deworming and micronutrient fortification with school meals is to address micronutrient deficiencies, while deworming specifically helps to ensure absorption of micronutrients children receive.

WFP Response

Food and Nutrition Assistance

- In June, WFP maintained a high level of operational response, and is on track to meet the same level of distribution figures as in the previous month, which was the highest quantity of food distributed in one month by WFP in South Sudan. Since the beginning of the year,

WFP assisted a total of 3.4 million people across South Sudan.

- In Northern Bahr el Ghazal, Eastern Equatoria, Lakes State, and Central and Western Equatoria, WFP is deploying Emergency Response coordinators to support its seasonal scale-up. In Northern Bahr el Ghazal, WFP finalized phase II of its support, providing assistance to 260,000 people. WFP will commence phase III of its response, targeting 530,000 people next week.
- Currently, there are 13 integrated rapid response mission (IRRM) teams deployed in Unity, Jonglei and Upper Nile States, providing life-saving food assistance to about 242,000 people, including 44,700 children under the age of five, with 4,500mt of food commodities. A total of 8 missions have been completed in Jonglei, Upper Nile and Unity states, assisting a total of 150,200 people, including 31,300 children under the age of five. WFP plans to deploy an additional 17 missions in the coming six weeks, assisting approximately 271,000 people with 5,035mt of food commodities.
- Food and nutrition assistance in Udier in Logochuk county, is ongoing, assisting 22,900 people, including 4,500 children under the age of five. The response in Mathiang was interrupted before food distribution last week due to recent insecurity in the greater Longochuk area. WFP is trying to ascertain the number of possible displacements in the area and is evaluating viable rapid response modalities to assist vulnerable populations on the move.

Supply Chain

- Despite heavy and continuous rainfall across the country which makes most of the main routes difficult to access or impassable, WFP continues to deliver food and nutrition commodities across South Sudan. Currently there are three WFP convoys in transit from Juba to Kapoeta, Western Equatoria and through the Western Corridor to Aweil, carrying 2,126mt of food commodities. Furthermore, WFP moved 2,107mt of food commodities from Ethiopia and Uganda to various locations in South Sudan by air.
- WFP offloaded a total of 2,183mt of mixed food commodities from food barge sets in Malakal for distribution in the Greater Upper Nile area.

Clusters and Common Services

Food Security & Livelihoods Cluster (FSLC)

- The FSL Cluster Agriculture Technical Working Group(ATWG) held a meeting on 6 July 2017 to finalise the terms of reference (TOR), work plan and develop a plan for the consolidation of the guidelines and development of standardized tools. The ATWG is primarily responsible for the coordination of agricultural related interventions in South Sudan.

Logistics Cluster

- The Logistics Cluster facilitated the delivery of 142mt of cargo to Aburoc, Bauw, Ganyiel, Haat, Jiech, Koch, Mayendit, Normanyang, Nyal, Pading, Pagil, Pibor, Pieri, Rumbek, and Wan on behalf of 24 organizations.
- The Logistics Cluster supported the Inter-Cluster Response Missions to Pading by transporting 11.1mt of food security and livelihood, agriculture, health, nutrition, and WASH cargo.
- The Logistics Cluster supported UNICEF rapid response missions to Haat and Wan by transporting 8mt of education, health, nutrition, protection and WASH cargo.
- In support of the response to areas in Central Unity, the Logistics Cluster airlifted 14.5mt of agriculture, food security, livelihood, and nutrition supplies to Bauw, Koch and Mayendit.
- The most recent Access Constraints map can be found at this [link](#).

UN Humanitarian Air Service (UNHAS)

- During the week, UNHAS transported 2,034 passengers and 18.4mt of light humanitarian cargo to 57 destinations. Moreover, UNHAS facilitated 70 WFP airdrops, dropping 2,088mt of food commodities.
- UNHAS performed two medical evacuations from Yida and Maban on behalf of two organizations, both on regularly scheduled flights. UNHAS further supported security relocations of 19 passengers from seven organizations from Pagak to Bor and Juba.
- Two Inter-Cluster Working Group (ICWG) Rapid Response Missions (ICRM) were supported from Juba to Normanyang and from Pading to Juba. UNHAS further supported a last minute charter request from Nimule to Juba.
- In support of UNICEF's child reunification project, UNHAS facilitated the reunification of one child with its family from Juba to Renk.
- Heavy rains in Juba and other locations in South Sudan caused cancellations and delays in Juba, Malakal, Paloich, Torit, Kapoeta, Mundri and Akobo. Flights to Wau, Rubkona, and Agok were also cancelled for technical reasons. Recovery flights were performed within the next two days.

Feeder Roads

Nothing significant to report.
