STRATEGIC PRIORITIES

Nutrition Sector Objective #1

Improve equitable access to quality lifesaving services for management of acute malnutrition for children (boys and girls 6-59 months) and pregnant and breastfeeding women through systematic identification, referral and treatment of acutely malnourished cases.

Nutrition Sector Objective #2

Promote access to services preventing under-nutrition for the vulnerable groups (children under the five and pregnant and breastfeeding women) focusing on infant and young child feeding in emergencies, micronutrient supplementation, and blanket supplementary feeding.

JOINT PiN

Joint targeting:
3.4 M beneficiaries targeted for
Nutrition Sector interventions are
part of **5.1M.** beneficiaries targeted
in **Food Security Sector**

TARGETED POPULATION

- The Nutrition and Food Security Sectors' targeting was based on *Cadre Harmonise* phase classification
- The **2.7 M women and children** targeted for nutrition interventions are part of the **5.1M** beneficiaries that Food Security Sector targeted with various Interventions

APPROPRIATE FAMINE PREVENTION RESPONSE PACKAGE

- Food assistance (in-kind and cash)
 - 3.2 m people
- Agriculture (crop production inputs-
tools seeds& fertilizer) – 1.9 m
people
- Nutrition (total 2.7m people part of
5.1m people)
 - SAM - 315,000
 - IYCF – 731,335
 - Vitamin A - 1.9m

- 275,801 households with acutely malnourished children targeted for general food distributions
- 12,209 HH received Cash Transfers linked to uptake of nutrition services
- 4 Cadre Harmonise conducted - Evidence based multi sectorial (food security and nutrition) assessment
- 18 Joint Rapid response mechanism (RRM) missions to access constraint areas conducted.

Food security Achievements

Total Targeted vs. Assisted

Achievements By Activity Type

Notes

*Agriculture:

Crop Production inputs including tools, seeds, fertilizer etc.

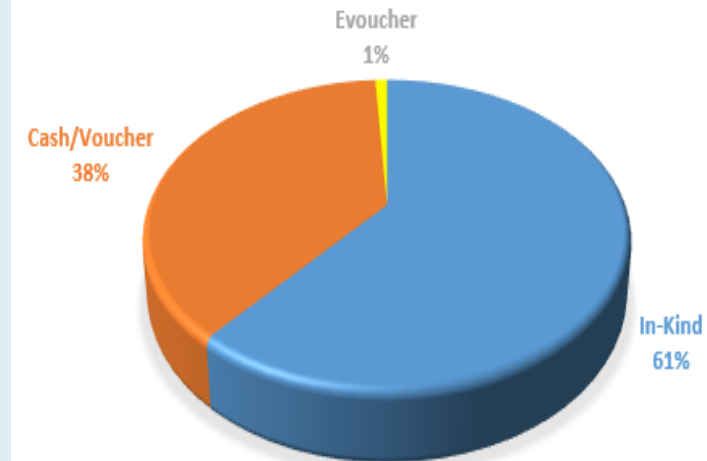

*Food Assistance

Evoucher in Pilot phase in 2 LGAs (Borno & Yobe) it will be extended to others in the coming months

*Coordination:

Important efforts on coordination have been done and the Food Security will include from the next month others partners achievements like ICRC, PCNI ect...

**GLOBAL
FOOD SECURITY CLUSTER**
Strengthening Humanitarian Response

**Global
NUTRITION
CLUSTER**

- **Systems – coordination**
 - Lack of platform for integration at strategic level – HNO/HRP is sector specific not joint, including M&E framework and advocacy and resource mobilisation
 - Lack of accountability framework for CLAs and partners, including gov't/state actors
 - Lack of a joint forum for food security and nutrition sector partners with inclusion of Health and WASH partners
- **Capacity**
 - Limited capacity within the implementing partners to implement both food security and nutrition interventions
 - No clear sector transition strategy from life-saving to recovery interventions and longer-term development
- **Implementation**
 - Joint assessments are conducted, although strategic planning and prioritization for implementation have remained sector specific.
 - Integration – delivery platform for Nutrition activities is health facility centered while majority of the food security are community or HH centered.

Recommendations

- Need for a multi-sectoral HNO/HRP and strengthening ISWG to facilitate inter-cluster discussions (opportunities, operational issues, challenges)
- Advocate for an integrated operational platform to facilitate integration at strategic level
- Systematize coordination between Food Security and Nutrition Sector with inclusion of Health and WASH Sectors
- Need for increased partner presence with capacity to implement Food security and Nutrition activities in country to facilitate the scale up of life saving humanitarian interventions; particularly in the newly liberated areas of Borno and Yobe state.
- Joint advocacy initiatives between food and nutrition sectors (funding, awareness creation, call for action).
- Develop joint transition strategy linking early recovery and presidential initiative for the NE
- Implement the existing guidelines on Food Security and Nutrition Joint approach on survey and others combined actions on preparedness and response
