RESULTS OF gFSC IM TRAINING SURVEY 2017

Aug. 17

BACKGROUND

In line with our commitment to regularly review the global Food Security Cluster's (gFSC) performance, the IM Team conducted a survey soon after the Training. The aim of the survey was to assess the gFSC's work and to provide insight on how to improve current training modules. The feedback from participants was particularly important and most of the responses were excellent to good.

The GST is pleased to share with you the key results from the survey.

KEY FINDINGS

21 RESPONSES FROM 24 PARTICIPANTS

OVERALL RATING OF THIS TRAINING?

43% EXCELLENT

48% GOOD

4% FAIR

YOUR OVERALL RATING FOR THE DATABASE SESSION

24% EXCELLENT   **10%** FAIR

62% GOOD   **4%** POOR

YOUR OVERALL RATING FOR THE GIS SESSION

48% EXCELLENT   **10%** FAIR

43% GOOD   **0%** POOR

SUGGESTIONS

gFSC should…
- more practical exercises and more days dedicated to the GIS session
- refresher trainings for IM on key developments and changes
- in-depth session on data collection and analysis, and report writing
