Potential committee members and roles

Institution

-
- URC, DDC, PIN, SCI, FAO, MIRA, Proliska, PAH, DRC

Roles

-
- Ensure projects are aligned with 2022 HRP strategic priorities, FSLC objectives, and geographic priorities.
 - Review projects timeframe.
 - Review the project's objectives and activities alignment. Are activities relevant and within the scope?
 - Review the project if it clearly described the food security context.
 - Review if the project is realistic, cost-effective, gender disaggregation, and vulnerability category reflective of the situation.
 - Review if target numbers are consistent throughout the project sheet.
 - Review cross-cutting themes (gender, protection, AAP, do-no-harm principle & community participation).
 - Does the proposal reflect a value for money/cost per beneficiary reasonably?

Upcoming UHF reserve allocation

- Priority areas will be discussed in the ICCG and the call will be out soon

Note: The call will be in line with FSLC priorities which have not changed significantly from 2021. The noticeable changes:

1. FSLC has two instead of three objectives. Cluster Objective (CO1) immediate access to food and (CO2) agricultural and non-agricultural livelihoods.
2. FSLC has recommended food plus for vulnerable households targeted for food. Provide agricultural support plus food/non-agricultural support based on need and capacity.
3. Target vulnerable women-headed households, especially within 10kms from the 'line of contact.'
4. Increase the duration of food to vulnerable households to at least 6 months
5. FSLC recommends a scale-up of livelihood activities, including in isolated communities.

Thank you!
