4. Food Assistance Working Group and Food Requests

- In an effort to respond to the incoming food requests effectively and efficiently, we will establish a timebound, operational 'Food Assistance Working Group' as part of the FSLC.
- This group should include partners who are actively involved in distributing food assistance and planning to continue in this area of response.
- This group will not involve separate reporting (normal 5Ws) – but there will be a focused meeting on a weekly basis OR as needed.
- As part of the work of this group, important issues related to the quality and standards of food assistance (commodities, rations sizes, access issues, etc.) will be managed.
