

# Global Network Against Food Crises

---

Integrated actions for lasting solutions

# GN Scope of work and goal

# GN 3x3 approach

# GN Technical Support Unit | Role and Composition

Working under the supervision and guidance of the Senior Steering Group.

## Main functions

- Support countries and regions **owned initiatives and existing mechanisms** to facilitate and strengthen the **coordination of actors along the HDP Nexus**.
  - Technical support to **country processes: analytical and programming efforts (COVID-19 framework)**.
  - **Knowledge generation and dissemination**.

## How

- Using **internal expertise both in FAO and WFP and external**.
- **Functional linkages with the gFSC**.
- Engaging discussion with **WFP and FAO country teams, and EUDs**.

# Support coherent analysis in relation to COVID-19

## Ongoing country level monitoring and analyses of COVID-19 risks and impact on food security and food systems:

- **FAO – COVID-19 assessments** on food security and rural livelihoods
- **WFP real time assessments**
- **IPC virtual analyses**
- **gFSC COVID-19 Working Group**

## Global public goods:

- Produce the **Mid-year update** of the **Global Report on Food Crises**.
- **UNSC regular updates** on “monitoring food security in conflict affected countries”.

# Support country level programming and reprogramming

**Technical backstopping to** Support to national partners, EUDs, FAO/WFP country teams (e.g. UNSDCF process).

- **Reprogramming in relation to COVID-19.**

- **Programmatic integration** and HDP nexus implementation by area-based coordination and collective accountability mechanism (e.g. Chad).

- Definition of **Collective Outcomes** on Food Security and Nutrition.

- Developing and strengthening **Joint Monitoring, Evaluation, Accountability and Learning (MEAL) Frameworks.**

- Developing of **HDP programming options** and related documentation of **best practices.**

- **TSU** in collaboration with **FAO** and **WFP** programming teams, **gFSC** and FAO, WFP COs and FSC at country level.
- Perimeter: **GRFC food crisis countries (55).**
- Based on **countries' demand** and needs.

# Country diagnosis to support programming

## Knowledge public goods

- **Country profiles:**

Provide the initial basis for *Global Network* support by identifying existing country-level actors and initiatives relevant to the Global Network's dimensions.

- **Financial allocations analysis:**

Provide an analysis of country level external financial flows and domestic investments to support resource allocations decisions and enhance coordination and advocacy along the HDP nexus.

- **Policy measures, programming options, and COVID-19 implications:**

Provide an analysis of policy measures and COVID-19 implications on food security and food systems with a focus on HDP related policy and programming issues, with the ultimate goal to provide governments and partners with an integrated and effective set of policy and programme responses.

# Knowledge public goods: **Country Profiles**

- **Overview of country-level initiatives and actors**

working on HDP nexus implementation and relevant to the Global Network dimensions.

- **Objective:**

provide recommendations on how the GN can support the identified initiatives and frameworks.

- **Focus on 10 countries for 2020**

(Afghanistan, Chad, DRC, Haiti, South Sudan, Yemen, Myanmar, Somalia, Mali, + 1 country to be defined).

- **Process and actors:**

- Initial desk review – GN TSU.
- FAO and WFP COs and FSC to review and validate.
- Coordination with EUDs for EU relevant inputs.
- Identification of key priorities for GN engagement.

# Knowledge public goods: **Financial allocations**

## **GLOBAL ANALYSIS**

- **Overview of external financial flows** to the food security, agriculture and nutrition sectors.
- **GRFC 2020 food crisis countries** (55 food crisis countries).

## **IN-DEPTH COUNTRY ANALYSIS**

- **Humanitarian and development assistance, and government budget**, mapped geographically where data is available (e.g. sub-national level).
- **FAO and WFP Response** (beneficiaries vs target population).
- **10 food crisis countries** (Afghanistan, DRC, Chad, South Sudan, Somalia, Haiti, Yemen, Mali, +2 additional countries to be defined).

- **Process and actors:**

- Development Initiatives to provide OECD DAC data on ODA and FTS/gFSC data on response.
- TSU to coordinate initial analysis.
- FAO and WFP COs and FSC to review and validate.

# Knowledge public goods: countries' COVID-19 policy response

- Analysis of the **policy measures and programming response to the pandemic** with a focus on HDP issues.
- A cross-country analysis on the effects and immediate policy responses by governments and partners.
- Long term/structural implications for the agri-food systems.

- **TSU** with **FIRST** team (HQ and countries offices).
- National Consultants per target country.
- FAO/WFP COs and FSC to facilitate coordination of stakeholders inputs.
- **20 countries** (Chad, Ethiopia, Burkina Faso, Kenya, Myanmar, Niger, WBGS, Afghanistan, CAR, DRC, Haiti, South Sudan, Sudan, Syria, Zimbabwe, Bangladesh, Iraq, Mali, Nigeria, Venezuela).

# Going Beyond Food and Integration of other actors

**Increase collaboration and coordination** between agencies and institutions to holistically address the multiple facets of food crises.

- Support the development of **multisectoral interventions**;
- Programmatic linkages with **Peace Actors**
- Strengthen institutional collaborations with **relevant clusters/sectors** (e.g. WASH and Health).

# Knowledge generation and dissemination

## Global public goods

**Country, regional and global analyses** on major drivers of food crises to be presented in global fora, regional meetings and inform national processes.

**Produce knowledge** based on **meta analyses** of existing efforts in relation to COVID-19:

- **Conflicts and instability.**
- **Anticipatory actions.**
- **Nutrition.**
- **Social Protection.**
- **Collecting data** under COVID-19 related constraints.

- **TSU** in collaboration with **FAO** and **WFP** specialized units, **gFSC**, country offices, research institutions, think tanks and consultancies.

# Thank You

**Global Network Against Food Crises**  
@fightfoodcrises
