Objective 2: Livelihood Seasonal Inputs & Livestock Assets Protection

Number of targeted beneficiaries assisted by region

Target 2,420,499

Assisted, 21%

Not assisted, 79%

FSC partners assisted 220,905 beneficiaries with seasonal input related activities in May. Cumulatively, for the 2019 Gu season, 509,170 people have been assisted representing 21% of the revised target.

As the seasonal cumulative assistance remain low, the cluster urge partners to scale up assistance. The support for livestock assets protection particularly urgently needed to keep livestock alive and producing milk, meat and income.
