1	A Resilient Future: Science and Technology for Disaster Risk Reduction	Training	Online - selfpaced		École polytechnique fédérale de Lausanne	Free (certificati on for 50 USD)	This course aims to introduce participants to existing and emerging technologies suitable for disaster risk reduction while promoting the overall aim of sustainable development. The course focuses on three main natural hazards- floods, landslides and earthquakes. It also discusses the challenges and limits of adapting and adopting technologies depending on context (Global North and Global South) with examples from Switzerland, Nepal, Colombia, Philippines and other countries.	yes (50 USD)	https://www.edx.org/course/a-resilient-future-science-and-technology-for-disaster-risk-reduction		Accessible after free registration
2	An Introduction to Resilience at USAID and Beyond	Training	online - self-paced	on demand	USAID	Free	This course introduces learners to the basics of resilience as an analytic, programmatic and organizing concept and discusses USAID's resilience work to date. As an introduction, it is followed by Online Resilience Training: Measurement, Livelihood Diversification, and Sustainable Poverty Escapes, an advanced course, on this topic.	n/a	https://www.agrilinks.org/training/introduction-resilience-usaid-and-beyond	resilience@usaid.gov	Aussi disponible en Francais : https://agrilinks.org/content/une-introduction-la-resilience-lagence-des-etats-unis-pour-le-developpement-international
3	ASEAN Regional Disaster Emergency Exercise (ARDEX)	Training	on-site	bi-annual	AHA Centre		The AHA Centre – together with the ASEAN Committee on Disaster Management (ACDM) – organise the bi-annual ASEAN Regional Disaster Emergency Response Simulation Exercise (ARDEX). ARDEX is intended for ASEAN Member States to practice, evaluate and review the ASEAN Standby Arrangements and Standard Operating Procedures (SASOP) in facilitating an effective collaboration amongst ASEAN Member States and between ASEAN and relevant United Nations and other international organisations in responding to major disasters in the region. During ARDEX, representatives from participating ASEAN Member States and other participants/observers seek to exercise, review, and enhance national and regional mechanisms for disaster preparedness and emergency response.		https://ahacentre.org/preparedness-response/		Accessible without registration
4	Climate Change and Food Security	Training	online - self-paced	on demand	FAO	Free	This course provides an overview of the impacts of climate change on food security. It also introduces climate-smart agriculture and practices that contribute to climate change adaptation, mitigation, food security and development.	n/a	https://elearning.fao.org/course/view.php?id=143		Accessible after free registration

For any comments or additions, please contact the gFSC cluster: info@fscluster.org

5	Disaster risk management for urban planning practitioners in ASEAN region	Training	online - self-paced	on demand	ICEM	Free	Ensuring safe and resilient urban growth is a priority of the ASEAN member counties. The region is highly vulnerable to the impacts of disasters and will continue to be so due to the effects of climate change. ICEM has developed a free, self-learning training course on disaster risk management for practitioners involved in urban planning in support of BUILD SAFELY, a programme under Phase II of the ASEAN agreement on Disaster Management and Emergency Response (AADMER) Work Programme 2016-2020. The course contains three modules which provide useful approaches, methods and tools: 1) Urban disaster risk in the ASEAN region, 2) Integrating disaster risk reduction into urban planning, and 3) Integrating disaster risk reduction into urban infrastructure planning and design. The materials cover processes and procedures that architects, engineers, urban planners and others involved in urban planning are familiar with and apply in their work.	n/a	http://icem.com.au/free-training-course-on-disaster-risk-management-for-urban-planning-practitioners-in-asean-region-now-available-online/climate-change-1/		Accessible without registration
6	Disaster Risk Reduction & Climate Change Adaptation	Training	online - self-paced	on demand	Swiss NGO DRR Platform	Free	In 2017, the Swiss NGO DRR Platform developed a basic course on Disaster Risk Reduction (DRR) and Climate Change Adaptation (CCA) for self-paced e-learning consisting of four modules in the form of power point presentations ready for download. The course is open to everybody, particularly addressing practitioners new to the fields of DRR and CCA. It is based on the broad expertise of the Swiss NGO DRR Platform and its partners. The four course modules cover the key concepts of DRR and CCA, practical case studies of different geographic contexts, illustrative video material and further references.	n/a	https://www.drrplatform.org/learning		Accessible after entering email address
7	Disaster Risk Reduction in Urban Emergencies (Online Course)	Training	online - with trainer	next 5 - 30 Novembre 2018	RedR	n/a	How does the practice of DRR and resilience translate to complex, vibrant urban environments? How do global frameworks relate to realities on the ground? And what can practitioners from the humanitarian and development sectors actually do? Designed for both humanitarian and development practitioners working in urban neighbourhoods this 4-week online course will give you practical, tangible ways to effectively adapt, transform or negate the potential impact of natural hazards through the practice of disaster risk reduction (DRR) and resilience.		https://www.redr.org.uk/Training-Learning/Events/e-Disaster-Risk-Reduction-in-Urban-Emergencies-(1)		No longer available
8	Disasters and Ecosystems: Resilience in a Changing Climate - Learn how to link between environment, disasters and disaster risk reduction (Leadership track)	Training	MOOC	currently closed	Technical University of Cologne and UN Environment	Free	Leadership Track: Start with the Leadership Track: six hours of learning for busy decision-makers, professionals or students curious about the topic. The Leadership Track consists of 6 sessions of 30-40 minutes, depending on how much time you spend on the reading materials, including 5-10 minute video-presentations and accompanying self-study readers drafted exclusively for this MOOC, quizzes, an on-line learning game and our interactive discussion forum. This track will be launched on September 18, 2017 and will remain open for students to take at their own pace until early 2018. You will be awarded a certificate upon successful completion (no fees) and will be eligible to enroll for the Expert track. Modules: <ul style="list-style-type: none"> • Unit 0. Welcome to Disasters and Ecosystems: Resilience in a Changing Climate • Unit 1. Disasters and Ecosystems: Resilience in a Changing Climate - why take this course? • Unit 2. Introduction to disasters, risk reduction and climate change • Unit 3. Links between disasters, disaster risk reduction, adaptation and key international actors • Unit 4. Principles and challenges of ecosystem-based disaster risk reduction (Eco-DRR) and adaptation (EbA) • Unit 5. Ecosystem management contributions pre- and post-disasters • Unit 6. Managing resilience and transformation 	?	https://courses.adpc.net/courses/course-v1:CNRD+EDRR001+2017_T1/about		This one is also listed in the 'preparedness' sheet
9	Resilience in Food Security Analysis (English)	Training	Online - selfpaced	on demand	FAO	Free	This e-learning course, entitled Resilience in Food Security Analysis, introduces you to the concept of resilience and its possible use in food security analysis.	yes	https://elearning.fao.org/course/view.php?id=136		Also exists in Spanish and French Accessible after free

10	Resilience Training: Measurement, Livelihood Diversification and Sustainable Poverty Escapes	Training	online - self-paced	on demand	USAID	Free	Three interactive modules of one-hour. Self-paced and covering key concepts, messages from thought leaders, and a review of frontier topics that contribute to successful resilience programming: Module 1: Measuring Resilience Module 2: Resilience and Livelihoods Diversification Module 3 : Resilience and Sustainable Poverty Escapes	n/a	https://www.agrilinks.org/training/online-resilience-thematic-modules-measurement-livelihood-diversification-and-sustainable	resilience@usaid.gov	Accessible without registration
11	Training on Resilient Livelihoods	Training	F2F - Kenya	several sessions coming up in 2019/2020	DataStat Research Center	USD 900	Most rural dwellers are accustomed to relying on their local environs for water, food and energy. These crucial resources are the main source of livelihood of for these communities and are especially essential for the sustainability of their lifestyles and wellbeing. Hence, when disasters occur, it is expected for such communities to suffer from reduced income, food insecurity, interruption of market access, or even the loss of livelihoods. Pests, diseases, food contamination, and drought are some of the most influential disasters that have a direct economic impact on trade, food production, and employment. Disaster risk reduction entails the protection of people's livelihoods from disaster shocks and the enhancement of the capacity to absorb and recover from unexpected events.		http://datastatresearch.org/courses/course.php?title=Training%20course%20on%20Resilient%20Livelihoods&id=2161&category=Select%20Category	EMAIL: info@datastatresearch.org TELEPHONE : +254724527104	Several courses available in 2020
12	Transforming Development: The Science and Practice of Resilience Thinking	Training	MOOC	Last session in June 2018	Stockholm Resilience Centre, the Centre for Complex Systems in Transition at Stellenbosch University and the SDG Academy.	Free	The course includes case studies and examples from practitioners who are working with resilience concepts in diverse contexts around the world. It is supported by strong scientific evidence and committed to being a platform to bring together and spark collaboration between individuals and organizations from around the world who are driven to transform development. MODULE 1: Setting the Scene – Development in a changing world MODULE 2: Taking action in a complex world MODULE 3: Transformation for rethinking development practice MODULE 4: The journey from theory to practice MODULE 5: Our intertwined planet: New understandings for development MODULE 6: Why the global matters for development MODULE 7: Reimagining development practice		https://www.stockholmresilience.org/education/educational-news/2018-04-12-centre-launches-new-online-course-on-how-to-link-resilience-and-development-issues.html		No longer available
13	Training on Resilience in Food security analysis	Training	F2F - Kenya	several sessions in 2019	DataStat Research Center	USD 900	Learning objectives By the end of the course, learners will be able to : - Understand various terms in food security and risk reduction - Gain knowledge on application of various approaches to Food Security interventions - Understand the various methods in Food security analysis and tools - Use of GIS and remote sensing in food security analysis - Monitoring and Evaluation in Food security programming - Improve agricultural infrastructure and agricultural practices Topics to be covered - Basic concepts of food security - Causes of food insecurity - Food system resilience and indicators - Preparation and planning of targeted interventions - Community food security assessment tool kit - Gender integration in food security programming - Monitoring and Evaluation in Food security programming		http://datastatresearch.org/courses/course.php?title=Training Course On Resilience In Food Security Analysis&id=2291&category=Agriculture		Several courses available in 2020

14	Caisses de résilience (English)	Webinar	Other	1: 07/07/2016	FAO - KORE	Free	The webinar presents the basic concepts of the 'Caisses de résilience' and highlights the adaptability of this approach in order to tailor resilience-building to varying contexts and challenges, from protracted crisis to natural hazards. It gives concrete examples of implementation and scaling-up in a number of African countries, from Uganda to Central African Republic, Liberia, Malawi, Mali and Chad, and recently also in Burundi, Guinea Bissau, Burkina Faso, Senegal and Democratic Republic of Congo. The session also illustrates how the approach was adapted as early as 2000 in Honduras and Guatemala to address the natural hazards context of the Dry Corridor area in Central America with an initiative called 'Community Contingency Funds' (CCFs).	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/458029/		Accessible without registration
15	Caisses de résilience (French)	Webinar	Other	1: 20/09/2016	FAO - KORE	Free	Le présent webinaire présente les concepts de base de l'approche «Caisses de résilience» et met en évidence son potentiel d'adaptation à divers contextes et défis : des crises prolongées aux aléas naturels. Des exemples concrets de mise en œuvre et de mise à l'échelle sont fournis pour un certain nombre de pays africains ainsi que pour la zone d'Amérique centrale du « couloir sec ». La session s'attache particulièrement à illustrer l'exemple de mise en œuvre des caisses de résilience en République centrafricaine pour soutenir les communautés rurales durement touchées par les derniers conflits.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/458052/		Accessible without registration
16	Confronting Drought in Africa's Drylands: Opportunities for resilience	Webinar	Other	1: 27/05/2016	FAO - KORE	Free	The webinar analyses current and future challenges to reducing vulnerability and increasing resilience in the drylands of Sub-Saharan Africa and identifies promising interventions and strategies that can enhance the resilience of the millions of households that depend on traditional livelihood strategies, such as livestock-keeping and farming as well as putting in place safety nets.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/458019/		Accessible without registration
17	Dimitra Clubs – Enhancing the resilience of rural men and women through community mobilization	Webinar	Other	1: 13/06/2017	FAO - KORE	Free	This webinar gave an overview of the implementation of the Dimitra Clubs approach, highlighted its results and impact on the resilience of rural men and women's livelihoods, and discussed with the audience on its replicability and potential for upscaling.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/886861/		Accessible without registration
18	Governing and managing disaster risk in the agricultural sector	Webinar	online - self-paced	on demand	DevCO	Free	Currently, the world is faced with an unprecedented call for action at a moment in which three countries (Somalia, Yemen, and northeast Nigeria) have been identified at risk of famine, after the declaration of famine in South Sudan early this year. The demand for humanitarian and resilience assistance is escalating.	n/a	https://webgate.ec.europa.eu/devco-academy/enrol/index.php?id=113	devco-academy@ec.europa.eu	Accessible after free registration
19	DRM Webinar I: Governing and managing disaster risk in the agriculture sector	Webinar	Other	1: 16/05/2017	FAO - KORE	Free	This webinar covered: 1) Institutional capacity development for DRM for resilience, food security and nutrition, 2) Mainstreaming DRM in agriculture sector planning, 3) Linking planning and capacity development for DRM, resilience and climate change adaptation (CCA)	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/463029/		Accessible without registration
20	DRM Webinar II: Assessing risks and impacts from extreme events/natural hazards on the agriculture sector	Webinar	Other	1: 30/05/2017	FAO - KORE	Free	This webinar covered: 1) Monitoring risk in agriculture - the Agriculture Stress Index System, 2) Damage and loss from disasters on agriculture and food security - recent data and the new SFDRR monitoring mechanism - indicator C2	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/884707/		Accessible without registration
21	DRM Webinar III: Benefits of farm-level disaster risk reduction practices in agriculture	Webinar	Other	1: 20/07/2017	FAO - KORE	Free	This webinar covered: 1) measuring the benefits of farm-level disaster risk reduction practices in agriculture – approaches, methods and findings from FAO's preliminary study; 2) a case study from Uganda on how the agricultural practices for disaster risk reduction were implemented and monitored at farm level; and 3) perspective from the Philippines on the challenges and opportunities to upscale the agriculture good practices for disaster risk reduction at national level.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/884706/		Accessible without registration
22	DRM Webinar IV: Building resilience to natural hazards and climate-related disasters in the Caribbean	Webinar	Other	1: 26/06/2018	FAO - KORE	Free	The webinar aims to: 1) Enhance awareness on Agriculture Disaster Risk Reduction through Preparedness, Early warning and Early Action and Emergency Response in the LAC region; 2) Discuss approaches on disaster risk management in agriculture, with specific focus on the LAC region; 3) Exchange experiences in implementing preparedness, early action, and emergency response initiatives.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/1133340/		Accessible without registration

23	Gender equality for resilience in protracted crises	Webinar	Other	1: 05/09/2016	FAO - KORE	Free	This webinar discusses policy responses and programming measures aimed at gender equality, based on FAO experiences in different protracted crises contexts. The webinar focuses in particular on the implementation of the recommendations and principles of the Committee on World Food Security's Framework for Action (CFS-FFA) for Food Security and Nutrition in Protracted Crises.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/458051/		Accessible without registration
24	Gender-responsive disaster-risk reduction in the agriculture sector	Webinar	Other	1: 11/07/2018	FAO - KORE	Free	The planned webinar would aim to reach a global audience across FAO's regional and country offices. Topics would include: 1) The what, why and how of gender-responsive DRR plans, strategies and project implementation. Facilitator Ilaria Sisto, FAO Gender and Development Officer, 2) National adaptation plans for the agriculture sector: putting gender equality on the agenda. Facilitator Sibyl Nelson, FAO Gender Advisor, National Adaptation Plan for the Agriculture Sector, and 3) Putting theory into Practice: Experience of Guyana in developing a national gender strategy for DRM. Facilitator from UNDP (tbd)	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/1071635/		No longer available
25	REAL Short Course in Resilience Measurement	Webinar	online - self-paced	4 event in June 2018	USAID Centre for Resilience	Free	In June, 2018, the REAL Award organized a Short Course in Resilience Measurement consisting of three webinars that provided a deep-dive into the five guidance notes 1. Risk and Resilience Assessments 2. Measuring Shocks and Stresses 3. Resilience Capacity Measurement 4. Resilience Analysis 5. Resilience Design and Planning for Resilience Monitoring and Evaluation at the Activity Level	no	https://www.fsnnetwork.org/real-short-course-resilience-measurement-june-13-20-and-27		Accessible without registration but 'Adobe Connect' needs to be installed
26	Resilience Index Measurement and Analysis model – RIMA-II: what's new?	Webinar	Other	1: 09/06/2016	FAO - KORE	Free	The webinar provides an overview of the evolved RIMA-II, highlights the possible use of RIMA results and presents some of the analyses that have been conducted around the world.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-detail/en/c/460135/		Accessible without registration
27	Social Protection Webinar I: Shock-responsive social protection for resilience building	Webinar	Other	1: 02/08/2016	FAO - KORE	Free	The webinar presents the concept and rationale behind risk-informed and shock-responsive social protection systems, building on FAO position paper "Social Protection and Resilience Building: Supporting Livelihoods in Protracted Crises, Fragile and Humanitarian Contexts" developed in partnership with the support of the institute for development studies (IDS). This paper also strongly builds on the Social Protection Inter-Agency Coordination Board (SPIAC-B) statement to the World Humanitarian Summit. We encourage participants to review FAO position paper and provide inputs and suggestions during the webinar to further enhance this joint approach.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/458030/		Accessible without registration
28	Sustaining Peace Webinar I – The role of conflict-sensitive natural resource management approaches	Webinar	Other	1: 23/01/2018	FAO - KORE	Free	This webinar explored how conflict-sensitive approaches to natural resource access and use can make a contribution to sustaining peace, and how investments in building resilience can help reduce specific conflict drivers. The event drew on and be illustrated by examples from: 1) SIPRI's perspectives on climate security and management of natural resource conflicts, focusing on laying the foundations for socially, economically and politically resilient peace; 2) Mercy Corps/pact's experience on natural resource sharing agreements between the Dodoth and Turkana in Uganda to strengthen communities' capacities to manage interethnic conflicts; and 3) FAO's work on natural resource access and use between Misseriya and Dinka Ngok communities through a multi-sector livelihood project in the contested Abyei Administrative Area.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/1027774/		Accessible without registration
29	The experience of the Global food security assessment for strengthening resilience	Webinar	Other	1: 30/11/2016	FAO - KORE	Free	The webinar's objectives are to inform technicians and resilience practitioners about the existence of the joint assessment and the global network; to get feedback on the usefulness of the report are received and feed into the process of establishment of the network itself; and to collect suggestions for improving the analysis, the communication shape and the focus to target audience (policymakers).	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/458054/		Accessible without registration

30	Resilience assessment integrates a set of key concepts to provide an alternative way of thinking about and practicing natural resource management.	Guideline	online	on demand	Resilience Alliance	Free	The workbook for practitioners uses strategic questions and activities to assess resilience in social-ecological systems. The approach involves constructing a conceptual model of a system that includes resources, stakeholders, and institutions, and identifies potential thresholds between alternative systems states in order to provide insight into factors that build or erode a system's resilience. A resilience assessment can help with developing strategies for coping with uncertainty and change.	No	https://www.resalliance.org/resilience-assessment		Accessible without registration
31	BRACED Resilience Exchange Platform	Platform	online	on demand	DFiD, Kore	Free	BRACED also has a Knowledge Manager consortium, the Resilience Exchange, which aims to generate evidence and learning on resilience and adaptation in partnership with the BRACED projects and the wider resilience community. It gathers evidence of what works to strengthen resilience to climate extremes and disasters, and initiates and supports processes to ensure that evidence is put into use in policy and programmes. The Knowledge Manager also fosters partnerships to amplify the impact of new evidence and learning, in order to significantly improve levels of resilience in poor and vulnerable countries and communities around the world.	n/a	http://www.fao.org/in-action/kore/news-and-events/news-details/en/c/1036325/		Accessible
32	Wayfinder	Platform	online	on demand	Stockholm Resilience Centre, Stockholm University, GRAID, Resilience Alliance, Australian Resilience Centre	Free	Wayfinder is a free and open online platform primarily designed for development practitioners, planners, policy makers who are working with sustainable development challenges, but the approach can also be tailored to a wide range of projects and contexts. It brings together ideas from complexity science and social-ecological systems thinking. Wayfinder is a collaborative process that consists of 5 phases divided into 15 modules, within which there are 40 work cards, which details specific tasks and analyses.	No	https://wayfinder.earth		Accessible
33	FSIN-REDDI	Platform	online	on demand (migrating from FSIN Resilience Measurement Technical Working Group)	Food Security Information Network (FAO, IFPRI, WFP)- Resilience Evidence for Decisions in Development	Free	FSIN is a technical platform for exchanging expertise, knowledge and best practices on food security and nutrition analysis, with a focus area in resilience measurement. It maintains three primary components: 1) A global community of practice to share knowledge, best practices and lessons learned among national, regional and global institutions on food security and nutrition.; 2) a resource for globally accepted standards, methods and indicators for food and nutrition security measurement; and 3) a repository of knowledge for decision makers on cutting edge food security and nutrition initiatives.	No	http://fsinplatform.org/ [migrating from] http://www.fsincop.net/topics/resilience-measurement/outputs/en/		Accessible
34	Gender and Resilience	Webinar	Other	1: 21.06.2018	RMEI CoP (hosted by Global Resilience Partnership and Stockholm Resilience Centre)	Free	Gender norms and power dynamics can play significant roles in influencing the ability of people, households, and communities to build resilience capacities and put them into practice in the face of a shock or stress. In this webinar, the speakers discussed measurement tools around three important issues at the intersection of gender and resilience – household decision-making, meaningful participation in community groups, and access to market linkages – developed with guidance from IFPRI and piloted in Mercy Corps field programs in Nepal, Indonesia, and Niger.	No	https://www.measuringresilience.org/gender-and-resilience-webinar		Accessible without registration
35	Beyond Good Development - Integrating Resilience Thinking from Assessment to Implementation	Webinar	Other	1: 06.03.2018	RMEI CoP (hosted by Global Resilience Partnership and Stockholm Resilience Centre)	Free	Mercy Corps developed the Strategic Resilience Assessment (STRESS), a methodology to help development practitioners apply resilience thinking to strategy and program design. The STRESS process helps practitioners understand how complex systems and interconnected drivers of instability threaten progress toward development outcomes. This webinar: Introduces the STRESS process, its outputs and outcomes using Uganda as a case study; Explores how the outputs of a STRESS are being applied (expected and unexpected) and the impacts observed; Synthesizes a set of learnings from the applications of the process to date which can inform additional resilience assessment methodologies.	No	https://www.measuringresilience.org/beyond-good-dev		Accessible without registration

36	Climate Adaptation in Africa	Training	MOOC	On Demand	University of Cape Town	Free (Certificati on for 39 USD)	This course explores why climate change adaptation is important in the African context. Africa is considered one to be one of the most vulnerable regions to climate change. Historically, climate-related hazards such as drought, flooding, pest and disease outbreaks, coastal storms and heat waves have had devastating impacts on people and the environment in which they live. Often the damage knocks back progress that has been made in social and economic development, slowing down the achievement of development goals. Climate models suggest that many of these climatic hazards will intensify as the global climate warms. Building resilience to climate risks, through adaptation, is critically important for future development in Africa. The course will examine adaptation in theory and in practice, through a focus on four sectors that are critically important for climate resilient development in Africa: Water Security, Agriculture and Food Security, Ecosystems and Ecosystem Services and Resilient Cities.	For 39 USD	https://www.coursera.org/learn/climate-adaptation		Accessible after registration
37	Introduction to climate-smart agriculture	Training	Other	On Demand	FAO	Free	This course analyses climate change impacts on agriculture, food security and food systems and provides an overview of the main climate change adaptation and mitigation strategies in agriculture. It also introduces the Climate-Smart Agriculture (CSA) approach and describes the 5-step process to implement it.	No	https://elearning.fao.org/course/view.php?id=439		Accessible after registration
38	Introduction to Gender and Disaster Risk Management	Training	Other	On Demand (self paced)	World Bank, Global Facility for Disaster Reduction and Recovery	Free	An e-learning course to help you understand how your disaster risk management (DRM) projects can equally benefit women and men by addressing: - The concept of gender, and how gender roles can affect women and men's risk and resilience to natural hazards; - How women and men manage, respond and experience disasters differently due to gender roles and gender inequalities; - How these differences should be addressed in DRM projects to ensure that women and men benefit equally from them. - Approaches to better design projects to promote gender equality and women's empowerment, and - Case studies that shows how gender equality and women's empowerment looks like in practice.	No	https://olc.worldbank.org/content/introduction-gender-and-disaster-risk-management		Accessible after free registration
39	Safe and Resilient Cities	Training	Other	On Demand (self paced)	World Bank, Global Facility for Disaster Reduction and Recovery	Free	The course will expose city officials and practitioners to cutting edge tools on vulnerability assessments, policies and programs, stock-taking and gaps analysis, and financial access. The discussion will also focus on decision making under uncertainty to identify options and establish priorities, making the city more resilient to climate change impacts and natural disasters.	No	https://olc.worldbank.org/content/safe-and-resilient-cities-self-paced		Accessible after free registration
40	Stakeholder Participation for Resilience	Webinar	Other	1: 22.01.2019	Zurich Flood Resilience Alliance, Climate Information Initiative	Free	The Zurich Flood Resilience Alliance and the Climate Information Services Research Initiative (CISRI) co-hosted a Webinar on the importance of and the challenges with including, involving and working alongside the communities and institutions who are affected by climate variability, change and hazards. Hear the presenters share their experiences of these approaches, examining what the projects have learned about effective stakeholder engagement and participation in complex systems, and how they contribute to resilience and sustainability.	No	https://www.floodresilience.net/resources/item/webinar-stakeholder-participation-for-resilience		Accessible without registration

41	Disasters and Ecosystems: Resilience in a Changing Climate - Learn how to link between environment, disasters and disaster risk reduction - Expert Track	MOOC	currently closed	Coming up in 2018 or 2019	Technical University of Cologne and UN Environment	Free	<p>Expert track: This track is for professionals and students who seek more in-depth learning and skills development in applying ecosystem-based tools for disaster risk reduction (Eco-DRR) and adaptation (EbA). The Expert Track consists of 15 units of 60 minutes each with video- presentations and accompanying self-study booklets, quizzes and a peer reviewed final assessment. The Expert Track runs over four weeks, with four hours per week. There are no pre-requisites for joining this course, however you will be able to follow along more easily if you have already taken the “Leadership track” prior. The Expert track is thus instructor-paced, with greater instructor presence and feedback, while the Leadership-track is student-paced and open until March, 2018.</p> <ul style="list-style-type: none"> •Understand the links between disasters, climate change adaptation and ecosystems through real life examples of Eco-DRR from around the globe and how Eco-DRR is practiced. Understand differences and similarities between Eco-DRR and EbA. •Learn more about ecosystems and spatial tools for disaster risk reduction and risk assessments •Learn about different tools for managing Eco-DRR e.g., community-based tools, ecological engineering, economic valuation as well as integrated approaches, such as integrated water resources management. •Understand more about the concept of resilience, differences between passive and transformative resilience and how it can be put into practice. •Gain practical knowledge about how to develop an Eco-DRR project. 		https://courses.adpc.net/courses/course-v1:CNRD+EDRR002+2017/T1/about	Marisol.Estrella@un.org	Accessible after free registration
42	Beyond Response: Better Preparedness for Environmental Emergencies	Training	Online - self paced	n/a	UNEP/OCHA	free	This 3-hour curriculum provides an overview of the emergency response process, introducing learners to tools they can use for assessing environmental risks, contingency planning, and preparing for emergencies at the local level. This curriculum is designed for environmental emergency responders and national disaster managers and their institutions.	no	https://ready.csod.com/LMS/LoDetails/DetailsLo.aspx?loid=fc79d3cd-7104-410c-88ed-1c6f999bd692&query=%3Fq%3Dpreparedness%26s%3D1&back_key=1#t=1		Accessible after free registration
43	Emergency Preparedness: American Red Cross	Training	Online - self paced	n/a	American Red Cross	free	<p>This 30-minute online course covers the basics of how to plan and prepare for disasters with a focus on earthquakes and home fires. This course is designed for all members of the public.</p> <p>Objectives:</p> <ul style="list-style-type: none"> •Explain how to prepare an emergency kit •Explain how to develop an emergency plan •Identify ways to remain informed 	no	https://ready.csod.com/LMS/LoDetails/DetailsLo.aspx?loid=0269cb5f-06b9-42ff-abc2-1d6f92f0ff1d&query=%3Fq%3Dpreparedness%26s%3D1&back_key=1#t=1		Accessible after free registration
44	Humanitarian Preparedness, Disaster Mitigation, and Risk Reduction	Training	Online - self paced	n/a	ATHA (2014)	free	Basic introduction to DRR (but only Hyogo Framework, not Sendai), Mitigation, Preparedness and the links between development and humanitarian sector in DRR	no	http://www.atha.se/products/humanitarian-preparedness-disaster-mitigation-and-risk-		Link does not work + I could not find the course on google
45	Inter-Agency Network for Education in Emergencies (INEE) Minimum Standards for Education: Preparedness, Response, Recovery	Training	Online - self paced	n/a	INEE	free	<p>This 140-page handbook is the only global tool that articulates the minimum level of educational quality and access in emergencies through to recovery. The aim of the Handbook is to:</p> <ul style="list-style-type: none"> • Enhance the quality of educational preparedness, response and recovery • Increase access to safe and relevant learning opportunities for all learners, regardless of their age, gender or abilities • Ensure accountability and strong coordination in the provision of education in emergencies through to recovery <p>The Handbook is designed to give governments and humanitarian workers the tools that they need to address the Education for All and UN Millennium Development Goals. It is the first step toward ensuring that education initiatives in emergency situations provide a solid and sound basis for post-conflict and disaster reconstruction.</p>	no	https://ready.csod.com/LMS/LoDetails/DetailsLo.aspx?loid=f85d5ad5-60cf-4d99-b346-f3b62f0003b&query=%3Fq%3Dpreparedness%26s%3D1&back_key=1#t=1		Accessible after free registration

46	Gender Perspectives in Disaster Preparedness and Humanitarian Response by APP	Training	MOOC	Coming up in 2018 or 2019	ADPC Learning platform	?	After completion of the course, you will gain understanding and knowledge of: <ul style="list-style-type: none"> • Concepts, terminologies and frameworks on gender, disaster preparedness and humanitarian response. • Basic tools for conducting gender analysis. • Integration of gender-sensitive approaches for disaster preparedness and humanitarian response. • Learning through innovation, advocacy, collaboration and partnership. • Module 1: Concepts and terminologies on gender, disaster preparedness and humanitarian response • Module 2: International frameworks/ declarations for gender integration into disaster preparedness and humanitarian response • Module 3: Basic Tool for Gender Analysis • Module 4: Learning through innovation, advocacy, collaboration and partnership 	?	https://courses.adpc.net/courses/course-v1:ADPC+APP-ADPC-01+2018/about		Accessible after free registration
47	72-hour assessment approach	Guideline	other	on demand	WFP VAM	Free	With a strong emphasis on data preparedness, the approach helps provide a good enough No snapshot to fill the initial information vacuum in the first three days after a sudden-onset disaster.		http://www.fsincop.net/resource-centre/capacity-development/detail/en/c/1144101/		Accessible without registration
48	FbF Webinar I: FAO Early Warning Early Action- What's new?	Webinar	Other	1: 12/10/2017	FAO - KORE	Free	This webinar was the first event of a mini-series on Forecast-based Financing (FbF). It presented the latest developments in FAO's Early Warning Early Action work, including: 1) The Global Early Warning - Early Action quarterly update covering the period October to December 2017 to highlight major disaster risks to food security and agriculture; 2) The latest EWEA country level work including the brand new EWEA Country Toolkit initiative, the Sudan and Pacific pilots and the case of the Mongolia dzud; 3) The cost effectiveness of Early Action: key findings from a Kenya case study; and 4) Partnerships and advocacy: what is happening at Inter Agency level and in the more broad international community with regards to FbF?	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/1041464/		Accessible without registration
49	FbF Webinar II: Reducing disaster risk vulnerability in Bangladesh – Partner perspectives	Webinar	Other	1: 06/12/2017	FAO - KORE	Free	This webinar was the second event of a mini-series hosted by FAO KORE and FAO EWEA on FbF and was jointly organized with the global Food Security Cluster (gFSC). It was an opportunity to present and discuss experiences of Food Security Clusters, Cluster Lead Agencies and partners to strengthen community preparedness and resilience. In particular, the webinar presented experiences of FbF activities introduced in Bangladesh - one of the most disaster-prone countries in the world.	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/1062838/		Accessible without registration
50	FbF Webinar III: From Early Warning to Early Action in Mongolia - Bracing for the cold to protect livestock and livelihoods	Webinar	Other	1: 18/07/2018	FAO - KORE	Free	The webinar aims to: 1) Provide an overview of the approach taken by FAO's Early Warning Early Action (EWEA) and Mongolia Red Cross Society's Forecast-based Financing (FbF) in Mongolia to act early to protect the most at risk and safeguard livestock in the face of dzud; 2) Present the results of the Return-on-Investment analysis conducted to quantify the costs and benefits of acting early in Mongolia; 3) Present the impact evaluation analysis that describes the reduction of risks achieved by the Forecast-based Financing intervention; and 4) Discuss the lessons learned from the case of Mongolia, also in light of the risks flagged in FAO's Early Warning Early Action Report (July-September 2018).	no	http://www.fao.org/in-action/kore/webinar-archive/webinar-details/en/c/1140221/		Accessible without registration
51	Planning for Climate Change in African Cities	Training	Other/MOOC	On Demand	United Cities and Local Governments of Africa, African Local Government Academy, Erasmus University Amsterdam, Institute for Housing and Urban Development	Free (Certificate for 49 USD)	The Course on Planning for Climate Change in African Cities provides the foundation for understanding cities' exposure and sensitivity to climate change, and how cities can manage these impacts in the face of growing uncertainty. It does so by introducing the basic concepts of urban resilience and adaptation, by using illustrative case studies in different African cities. Furthermore, this module provides lectures on the different approaches for climate change planning, whether ad hoc, strategic or mainstreaming; introduces the different steps in the planning cycle – from initial assessment to monitoring and evaluation; and presents the different decision support and assessment tools for prioritizing climate change actions. This course broadens the discussion on planning for climate change by engaging learners to apply their knowledge and practice their decision-making skills in a simulated exercise.	For 49 USD	https://www.coursera.org/learn/climate-change-africa		Accessible after free registration
