An estimated 8.5 M people are severely food insecure, Phase 3 and above, according to the latest IPC analysis from July 2020. Moreover, desert locust infestation has affected agricultural production of pocket areas in Afar, Amhara, Tigray, SNNPR, Somali, Oromia and Dire Dawa. At the same time, COVID 19 pandemic has posed a threat to food access and availability due to mitigation measures and reduced access to agricultural inputs. Lastly, floods have damaged crops and grasslands deteriorating livelihood assets and reducing resilience of the affected Household in Somali, Afar, SNNP, Oromia and Dire Dawa. The ATF response priorities remain protecting and sustainig productive assets of the most vulnerable Household prioritizing IPC phase 3 food insecure woredas that have been affected by DL upsurge.
