- South Sudan Joint Response AAP framework-Lessons-+experience SC-Joseph
- Integrating Protection into FSL programs-Lessons, best practices and experience VSF-Swiss-Kevin
- Markets Overview-VAM+WFP REACH-Matt
- AAP checklist-FSL+WASH FSLC-Alistair
- Announcements(IPC, SSHF, HNO, Prioritization) + AOB FSLC-Ntando, Viola

Main Discussion Points

South Sudan Joint Response AAP framework Presentation - The south Sudan Joint Response Program manager delivered a presentation on the AAP Framework/system. The presentation highlighted the following:

- Brief intro to the SSJRP, members both INGO and NNGOs and their current presence in different parts of south Sudan.
- SSJR Accountability system whereby once a complaint is received its dived into filtered into sensitive or non-sensitive. If non sensitive it goes through the active channel which is the JR accountability officers who would then document, analysis then take action if needed.
- If the compliant is sensitive then it skips the whole process and it goes directly to the SJR partner and its responded to directly.

Integrating Protection into FSL programmes-Lessons, best practices and experience VSF-Swiss - Kevin

Through community engagement ,vocational training Vocational Trainings such as Welding, Driving, Auto mechanics, Electrical Wiring, Tailoring & Fashion Design, CAHW, Integrating CP in FSL activities eg. during mobilization, sensitizations, trainings with protection messaging - child protection and prevention messaging to sensitize and create awareness on protection issues which included recruitment and use of children in armed ranks led to Successful reintegration of at least 566 children.

Markets Overview-VAM+WFP - REACH-Matt

REACH presented the Joint market Monitoring Initiative which is a collaborative partnership among members of the Cash Working Group (CWG). It is; a monthly exercise to collect price data for key food and non-food items in markets throughout South Sudan, it covers urban and rural markets throughout the country. Done on monthly bases where factsheet and dataset is released indicating prices and other indicators. It was launched in July 2019.

AAP checklist-FSL+WASH –FSLC - Alistair - Basically a tool/checklist to guide FSLC partners on incorporating Accountability to Affected Populations (AAP) throughout the Program Management Cycle (PMC) and how to engage the community at each stage in the cycle; The checklist covers the four stages of PMC which are the Needs assessment analysis, strategic planning, implementation and monitoring then evaluation and learning.
