## Pemba FSL Cluster Meeting – 16 December 2020 AGENDA

### 1. Situation - Updates

- Movements
- Temporary /Relocation Sites

### 2. Nampula: Situation and interventions – General Overview, *Giselle Genna, Refugees Livelihoods Programme Coordinator, WFP Nampula*

### 3. FSC Updates

- Food Assistance - Partners Update
- Agriculture WG Update, *Gaudencio Monteiro, FAO National Field Officer*
- FSC in numbers, *Joao Muianga, FSC Information Manager*

### 4. Inter-Cluster

- Multi-Sectoral Rapid Assessments
- Rapid Response Modality Strategy
- Trainings

### 5. AOB

The Cluster Coordinator welcomed all Partners attending the meeting and welcome the following members:

1. Pablo Rodriguez from WFP, who has been designated as the National FSC Coordinator at national level (Maputo).
2. James Terjanian, FAO Pemba, Emergency Coordinator
3. Nampula Food Security Working Group, represented by Giselle Genna, WFP Livelihoods Officer.

## Pemba FSL Cluster Meeting – 16 December 2020

### 1. Situation UPDATES

- Movements**

- Pemba to Nanjua B, Ancuabe
- 3 de Fevereiro Temp Site to Ntocota –
- Messanja, Metuge District

- **Temporary Sites: 5 Temporary Sites still open**

District	Site	Estimated site populations at site (HH)	Plots planned (relocation sites)	Site typology	Status	Service providers present	Site planning	Comments
Metuge	25 de Junho	8899		Temporary	Open	Yes		
Metuge	Manono	1022		Temporary	Open	Yes		In process of CLOSURE
Metuge	3 de Fevereiro	843		Temporary	Closed	Yes		Relocated to Ntocota, Metuge District, Cabo Delgado Province
Metuge	Nanjua	1746		Temporary	Open	Yes		
Metuge	Centro Agrario de Namapala	138		Temporary	Open	Yes		
Metuge	Namuapala	772		Temporary	Open	Yes		

1. From Pemba: Yesterday, we were informed that the Pemba Administration is planning to finalize the movements of IDPs from Pemba to Nanjua B, today Wednesday with the last 100+ families to be transferred to the site. CCCM Cluster is following up on this movements to continue with support.
2. Between 3 and 5 December, IDPs at 3 de Fevereiro Temporary Site (Metuge District) were relocated to Ntocota Relocation Site. The FSC Coordination Team is in conversations with partners to support the provision of food and livelihoods support.
3. A new area in the north of Metuge (Messanja) has been identified where there is a presence of IDPs; currently being followed up by district authorities and humanitarian partners.

**Pemba FSL Cluster Meeting – 16 December 2020**  
**1. Situation UPDATES**

• **FSL Cluster’s Preliminary Prioritization for Relocation Sites**

DISTRICTS	RELOCATION SITES	Number HH	REMARKS and ACTION POINTS
Ancuabe	1. Nangumi	390	RS with potential to grow. ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.
	2. Nanjua B	850	ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.
Chlure	3. Katapua	150	ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.
	4. Marrupa	615	ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.
Metuge	5. Ngalane	418 (plots)	Distribution of agricultural inputs already done by Partner Arco Iris in November; but requires follow up. ACTION: Follow-up and monitor
	6. Ntocota	<del>350</del> 699	350 IDPs moved from 3 de Fevereiro Temp Site (3-5 Dec) & 344HH fm Quilite Community. ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.
Montepuez	7. Mapupulo	672	ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.
	8. Necuapa	650	RS with capacity for 4,000 HH ACTION: AWG Assess agricultural land & coordinate the distribution of agricultural inputs.

**Prioritization of the Relocation Sites**

- Based on conversations (meeting 10 November) with CCCM Cluster Coordinator and using the previous Site Map/Tables, eight (8) Relocation Sites were prioritized for the agricultural livelihoods assistance as indicated in the this table.
- Ngalane: this site has been assisted but requires follow-up actions.
- There are now 699 HH in Ntocota. This is the 350 HH from 3 de Fevereiro and the 344 HH from the Quilite community that were living at Manono. There are still remaining people/communities at Manono Temporary Site.

Pemba FSL Cluster Meeting – 16 December 2020  
2. Nampula Overview

**2. Nampula: Situation and interventions – General Overview, *Giselle Genna, Refugees Livelihoods Programme Coordinator, WFP Nampula***

With the IDPs response covering the Northern Provinces, Cabo Delgado, Nampula and Niassa, the participation of the Nampula FSWG will be more frequent as well as the collaboration and support from the FSL Cluster Coordination Team.

Presentation follows and also attached separately.

# **Nampula Province Situation and interventions**

---

## General Overview

16<sup>th</sup> December 2020

## Structure

---

HCT – Humanitarian country team

---

**\* FSWG – Food Security Working Group at Nampula level\***

FAO, WFP, UNHCR, PLAN, CEDES, CARITAS NACALA, HELPO

4 meetings – in PT

## Figures

- Around 36.936 IDPs (INGC data 16.11.2020)
- 18 Districts (of 23)
- Nampula, Meconta, Nacala-Porto and Memba

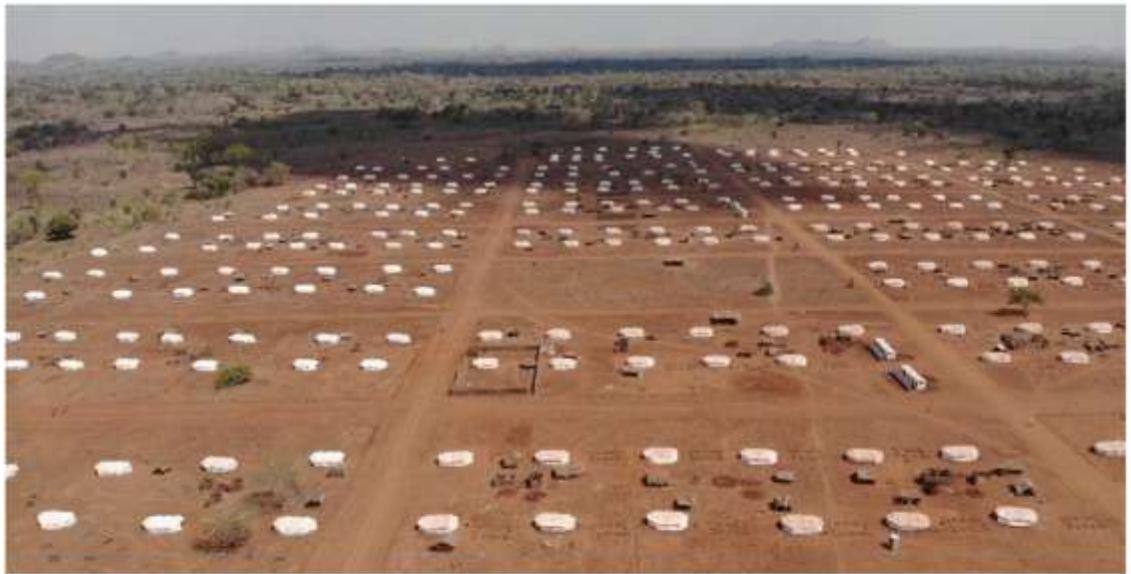

### Corrane IDPs Resettlement 3<sup>rd</sup> October

#### Namialo - Meconta District

Habitational Area	324.36 Ha	2.162 plots	20x30
Agricultural Area	265.64 Ha	844 a. plots	1,5 ha

#### Corrane IDP Resettlement

- Has capacity for 2,162 habitational plots.
- HH plots of 20 x 30
- Majority of the IDPs come from Quissanga and Mocimba de Praia

Courtesy of UN-HABITAT

## Interventions

---

Food Assistance – provided by WFP 17 Districts - 35.000 people  
Caritas Nacala 4 Districts -340 HHs

Kits for agricultural production – provided by FAO 1500 and PLAN 550  
(Meconta and Corrane)

---

Kits for agricultural production and technical trainings – 3 Districts

FAO *electronic voucher system* for Corrane – 1500 households

Opportunities for livelihoods activities – to explore

Thank you!

### 3. FSC Updates

- Food Assistance - Partners Update
- Agriculture WG Update, *Gaudencio Monteiro, FAO National Field Officer*
- FSC in numbers, *Joao Muianga, FSC Information Manager*

#### 1. ARCO IRIS

- Distribuição em Ngalane, Aldeia de Namaluco - Dia da distribuição 24 de Novembro de 2020 - Numero de beneficiarios 196 familias correspondente a 1,372 Pessoas
- **DISTRIBUIÇÃO NO DISTRITO DE METUGE – NANGUA-Nancaramo - Data: 03/Dezembro/2020** Distribuimos **280 quites** para Nangua, **Aldeia de Nancaramo**, a distribuição decorreu bem até no final. Numero de Pessoas alcançadas 1960.
  - 25 kgs de Arroz
  - 7 kgs de Feijao
  - 4 Litros de oleo
  - 1 kg de Sal
  - 1 Barra de sabao.
- Planning to assist 306 HH in Ntocota through food kits. But this is to be confirmed.

2. WFP has completed two distribution cycles in a period of three (3) months through which has provided assistance to 344,414 beneficiaries in seven districts. In December, is only assisting in the districts of Palma, Metuge, Meluco, Pemba and Montepuez.

- Palma: with commodity voucher, Cooperating Partner is AMA

- Metuge: assisting new arrivals requested by government
- Meluco: doing direct distribution
- Pemba and Montepuez: distribution of value voucher

3. Caritas has provided assistance in Ancuabe, Manono, Marrupa and Meluco.

ACTION: Check with WFP.

### 3. FSC Updates

- Agriculture WG Update, *Gaudencio Monteiro*,  
*FAO National Field Officer*
- Presentation attached separately

#### Agriculture WG Update

**Seeds and Tools Update:** According to the AWG online coordination tool/table, up to 16 December, planned and ongoing assistance through Emergency Livelihoods Response activities to IDPs from Ancuabe, Chiure, Ibo, Meluco, Macomia, Metuge, Montepuez, Namumo, Pemba (Cabo Delgado) and Meconta (Cabo Delgado). The assistance carried out with the support from (9) partners: Arcos Iris, Care, Caritas, Cesal, FAO, ICRC, Instituto Oikos, Save the Children and UNDP. The livelihoods support activities are through seed and tools distribution, fishery and poultry.

**Joint Assessment - Metuge –Naminawe:** On 14 December 2020, a joint site assessment in Metuge Naminawe was carried out. The objective of the assessment was to gain a better understanding of:

- Physical layout and suitability of the proposed new Naminawe relocation site in Metuge;
- The location of the site and access constraints;
- Location of IDPs who may be requested to relocate to centre.

Findings:

- When the assessment was carried out, the site was not occupied.
- Approx. 51 IDPs were already living in host community in Naminawe village.

- Is expected that approximately 300 IDPs families to be hosted.
- Amount of farming land (machambas) to be given to IDPs for agricultural purpose) is 17ha. The plot size is 1 ha/IDP
- The distance from the community to the farming area is about 2Km.
- Some 10HHs which are living in the host families, have already received farming land; however, the the 51 IDPs have not yet been allocated areas for agriculture.
- About availability of water for agricultural practices, there are rivers nearby 200m from resettlement site.
- In relation with soil quality, the soil texture is loamy – sanded and there is no risk of flooding
- Crops: Maize, sesame, cowpea and vegetables are main Crops to be grown. The vegetable crops can be grown nearby the downstream periodic river at the distance of 1 km approximately. The other area to grow vegetables is the irrigation scheme located to Sunho.

### **ACTION / FOLLOW UP**

IDPs to start preparing the land (debushing/bush clearing, removal of stones and rocks, ripping, and levelling of the soil)

Meeting between FSC members and partners in order to coordinate for a rapid response (provision of seeds and tools) as the rainy season is about to start.

### 3. FSC Updates

- FSC in numbers, *Joao Muianga, FSC Information Manager*
  - *PPT attached separately*

Pemba FSL Cluster Meeting – 16 December 2020  
4. Inter-Cluster Updates

• **Multi-Sectoral Rapid Assessments**

• 5 new sites in Metuge (**Plan**)

1. Naminawe
2. Nacujuba
3. Saul
4. Cuaia
5. Nkitcha

Assessment Completed on 14 Dec, FAO

Cancelled

**In the Pipeline**

- Chiure District

**FOOD SECURITY CLUSTER**  
Strengthening Humanitarian Response

A multi-sectoral site assessment is expected to take place this week in Metuge District in new areas (five) identified for potential relocation sites by the Administrator.

Pemba FSL Cluster Meeting – 16 December 2020  
4. Inter-Cluster Updates (Cont'd)

- **The Rapid Response Strategy**

Rapid Response Teams (RRTs)

**Rapid response missions (RRM)**

Multi-Sectoral Rapid Response Kits

- **Trainings** • IASC Guidelines for Integrating GBV Interventions in Humanitarian Action Workshop – 10 Dec **Postponed: Tuesday, 12 January 2021**

5. AOB

**Next Meeting:**

The Rapid Response Modality Strategy defines a mobile framework for Cabo Delgado, creating adaptable teams and response kits that can be deployed depending up on the context and security environment.

- The objective of the RRM is to assess and respond in a timely, coordinated manner to the most critical humanitarian needs of newly displaced families who are still on the move, in accessible, partially accessible and hard-to-reach areas, for an initial period at the onset of an emergency until full-fledged emergency response is put in place.
- Rapid Response modalities that are adaptable to the security, access, logistics, protection concerns and takes into account feedback from communities. The key modalities include:

**Rapid Response Teams (RRTs):** they consist of adaptable multi-sectoral team(s), that can assess and deliver life-saving services to people in need. Teams consist of operational partners from different UN agencies and NGOs that deliver services while on ground. The teams' composition is adaptable to the specific assessment and/or response that will need to be undertaken in a certain area, in an effort to provide immediate assistance or help to restart basic services. The RRTs can be deployed within 48 hours and for at least a day to assess and respond to

humanitarian needs, accessing the identified area via air (through an aircraft or helicopter) or road.

**Multi-Sectoral Rapid Response Kits:** they consist of a collection of essential, multi-sectoral life-saving items that improve people's ability to survive, where they are cut off from access to basic items, or in the case populations are impacted by multiple displacements. These populations are often on the run and or are in hiding trying to move to safer locations. A multi-sectoral kit may include any combination of critical loose items from various sectors, primarily food security and livelihoods, health, shelter and non- food items, nutrition, and WASH. The key characteristic of the kit is that it is light enough (9 kg or less) that it can easily be transported by air for an emergency response and for beneficiaries to be able to carry if they are on the move.

Pemba FSL Cluster Meeting – 16 December 2020

# Obrigada
