This map indicates the districts of Cabo Delgado province where projects by FSC partners are being implemented in response to conflicts affected. It is based on the FSC 5W matrix, so it reflects only the activities of organizations that have agreed to share their 5W information with the cluster. For those actors who are not listed and who are currently conducting food security activities, we encourage you to share the matrix with FSC. As projects can end or start at any time of the year, this mapping will be shared every month to have a realistic and updated version of the current situation.
