# Zimbabwe: Monthly FS Response Dashboard - Food Assistance

September 2021

FOOD SECURITY CLUSTER

During the month of September 2021, FSL Cluster partners reported having reached 336,000 people with either in-kind food distribution, cash, or vouchers modality in both rural and urban areas. Among them, 315, 824 received cash-based support in urban areas, 4,682 in rural areas while the remaining 15,448 beneficiaries received in-kind food assistance in rural areas.

September confirm the status of the assistance reported in August, with cash assistance taking 95% of the share of food assistance, and in-kind only 5%. Food in-kind also shows a growing trend within its low absolute figures, whereas it has almost doubled compared to August. Under the current circumstances, only 5 agencies have reported being active in food assistance (only 1 national NGO) in the month of September, while the contribution to the HRP remains low due to the pre-lean season period.
