<tr>
<th>Program Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Objective 1</strong>: To improve equitable access to and utilization of lifesaving and comprehensive primary health services including sexual, reproductive health, maternal health, neo-natal health, psychosocial support (PSS) and non-communicable diseases for refugees and host communities in target locations.</td>
</tr>
<tr>
<td><strong>Objective 2</strong>: Improved maternal, infant and young child health and nutrition practices for pregnant and lactating women (PLW) and children under 2 years and increased detection and rehabilitation of children affected by malnutrition related skeletal disorders</td>
</tr>
<tr>
<td><strong>Objective 3</strong>: Improved access to nutritious food for households with children under five, older persons, and PLW, through home gardens, participatory cooking sessions and livelihoods interventions</td>
</tr>
<tr>
<td><strong>Objective 4</strong>: Women and girls are protected from and treated for the consequences of GBV</td>
</tr>
<tr>
<td><strong>Objective 5</strong> (cross-cutting): Individuals, families and communities have improved access to timely and responsive two-way community engagement, in their preferred language, related to services and life-enhancing actions that they can take.</td>
</tr>
</tbody>
</table>
Our Livelihood Interventions

- Home Gardening
- Small Business (Grocery shop, handicraft, tailoring, mobile repairing shop etc.

</tr>
</thead>
<tbody>
<tr>
<td>450</td>
<td>50</td>
<td>400</td>
<td>Will be distributed by June/July 2022</td>
</tr>
</tbody>
</table>
Field Level Update

- Out of 50 supplied goats, 25 delivers 43 kids
- Beneficiaries sold 5 kids out of 43
- New 250 Beneficiaries selected out of 400.
- 250 Beneficiaries list endorsed by the local chairman.
- 250 Goats will distribute June & July 2022.
Challenges

- Purchase of local goats (Less availability)
- Lack of experienced local supplier to supply local goat
- Challenge to ensure proper quarantine before distribution all the time
- Challenge to establish proper linkage between beneficiaries & ULO office.
- Challenge to ensure vaccination properly.
Way out

- Extended procurement period for goats purchase.
- Organize orientation for suppliers before purchasing of goat, involve ULO office expert.
- ULO officer & Union sub assistant livestock officer facilitate the staff & beneficiaries training
- Vaccination ensure through ULO office.
Process maintained For distribution.

- Goats purchase through Vendor
- Main criteria of purchase – Black bangle goat (Local) weight 13-15 Kgs, Disease free, 02 teeth
- Field staff ensure regular visit at the household of beneficiaries
Goats rearing is very popular & acceptable intervention by the beneficiaries, so we increased the target.

Intensive monitoring is needed at least first 03 months

Involv[e ULO office representative for training, treatment & vaccination
Beneficiaries with their goats
