FSS Updates
ISCG in consultation with the SEG (Dhaka) are drafting adjustments to the composition of the sectors and the WGs in CXB:

- Formation of new sector under UNHCR: Livelihoods and Skills Development Sector (LSDS)
- Transition of the SDTWG into the new sector structure.
- EETWG: while it was proposed that EETWG remain under SMSD/ShelterNFI, it is unclear
Change in Sector Composition

Purpose and function of the newly established LSDS:

• Align the objectives of the **UN Framework on Skills Development for Rohingya Refugees and Host Communities.**
  
  o Support capacity building and skills development for Rohingyas in support of their voluntary return and sustainable reintegration in Myanmar.
  
  o Support practice of skills and capacities to address security and safety challenges, and for decent and meaningful lives.
  
  o Strengthen skills-training institutional capacities for host communities.
Impact on FSS

• FSS will *divert skills development* related focus toward the LSDS (most off-farm activities)

• FSS focus on *food security and resilience*:
  • FSS will expand resilience support in the host communities – especially in the northern Upazilas
  • FSS will continue resilience interventions in the camps (homestead gardening, CfW etc.)
  • FSS will expand support for JRP SO-5 (Strengthening DRR and combating climate change), through close engagement with EETWG.
  • FSS will strengthen market linkage coordination through aggregation centres-farmer groups and fresh food corners in camps.

* Cross-cutting: there are many cross-cutting areas currently being discussed – FSS and LSDS will work closely to coordinate.
