3. Challenges

1. Access issues vs transport challenges
2. Insecurity e.g. age fight
3. Massive Floodings
4. Land ownership vs Demo farm
5. Needs are hugely enormous
6. Communication issues
4. Lessons Learnt

- Due to hunger the HHs may turn to eat seed
- May cause HHs to sell the fishing kits or seeds
- Inadequate water supply for irrigation due lean season
- Crop production is less value by the host communities than livestock farming
5. Recommendations

- **Thurayas vs Haris radio**
- **Contingency plan in case of flood & insecurities**
- **Government to issue demo farm**
- **Need to conduct KAP survey**
- **LOG Cluster to opt for a drop of FSL supplies in VERTETH**
- **Operationalization of BPHNS**
