Beneficiary issued with a token after the serial number in the token is entered into distribution form.
Beneficiaries are issued with a token. The serial number in the token is entered into distribution form.
From the registration point the beneficiaries queue at the banking hall.
In the Banking Hall the registration forms taken to the teller.
In the Banking Hall the beneficiary hands over the token to the teller to verify the serial number on the token if it is same with the one in the form.
In the Banking Hall the beneficiary hands over the token to the teller to verify the serial number on the token if it is same with the one in the form and the beneficiary signs the form as he receives the money from the teller.
Upon the receipt of the cash, beneficiaries who can’t count, are blind, or are challenges in any way by counting the cash are helped by representatives of distribution committee to verify the amount.
Post Distribution: Beneficiaries displaying what they bought as soon as they got the cash, we also have PDM 1 – 2 months after the distribution.

Lessons learnt from PDM (Annie)
During Unconditional Cash Transfer distributions we have also found it a great time for sensitizing with other key life-saving messages. Particularly for those most vulnerable.
