Project Duration	12 months
Starting Date	June 1, 2021
Ending Date	May 31, 2022
Number of Beneficiaries Targeted	24,354HHs /170,478 individuals

# Goal & Purpose

## Goal

Improved Food and Nutrition Security of the conflict and COVID-19 affected population in Borno, Nigeria.

## Purpose

Household food security and incomes of vulnerable households is improved through unconditional food assistance and income generating activities.

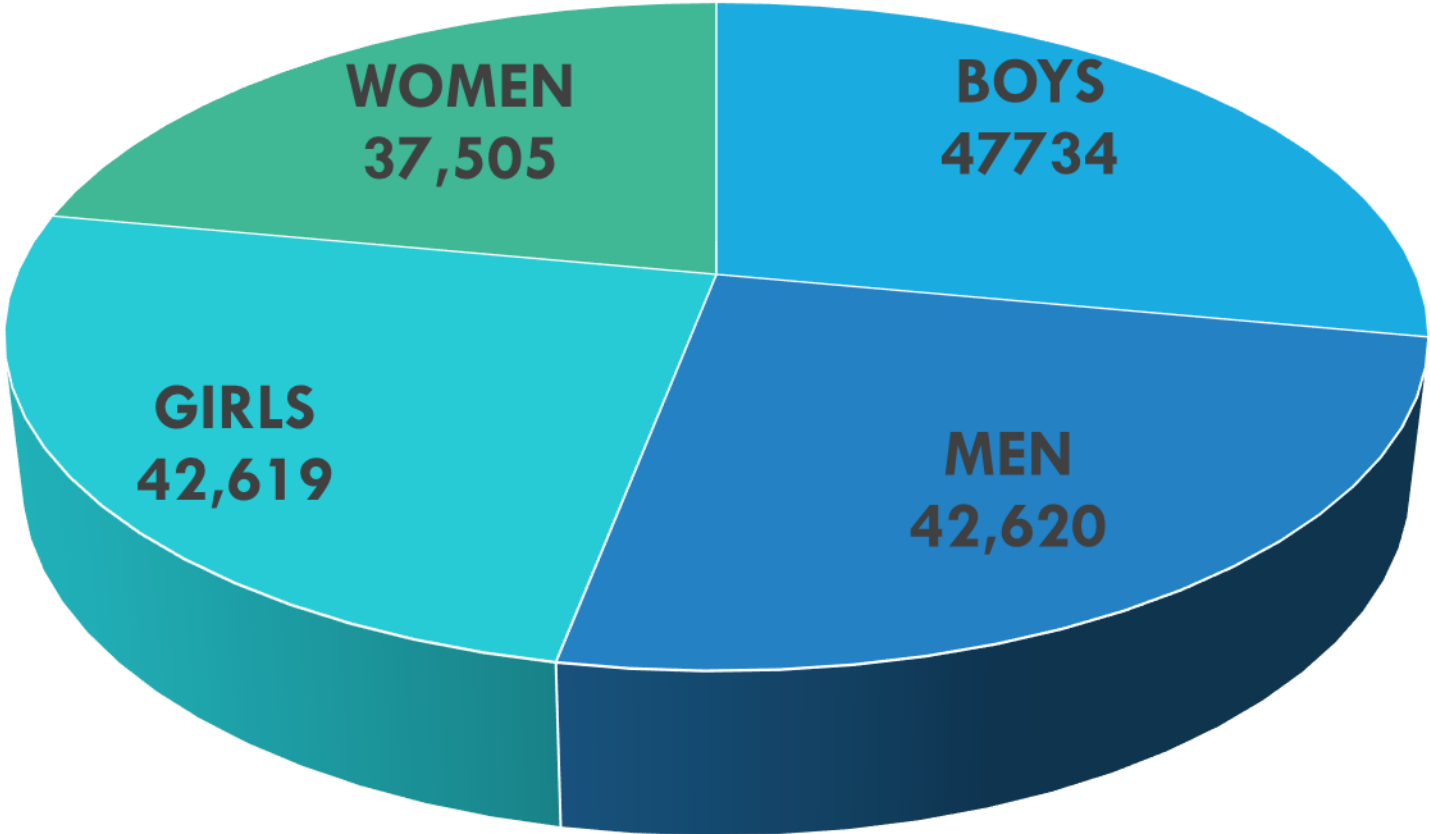

# Theory of Change(ToC)

Food and Nutrition security of the vulnerable population affected by ongoing conflict and COVID-19 pandemic in Northeast Nigeria will be increased and mortality and morbidity will be reduced **IF: Access to critical lifesaving assistance to the most food-insecure populations is continued and resilience of vulnerable population is improved by using multi-sectoral strategies to improve the food security, access to health and nutrition services where safe water and proper sanitation facilities are available to help the vulnerable population to prevent the illnesses to improve the wellbeing of the community. Then** the food and nutrition security of the conflict and COVID-19 pandemic affected population of Borno state of Nigeria **will be improved.**
