As of February 2020, 24 partners collectively assisted 210,649 people which represents more than double the achievement from January mainly due to the resumption of WFP’s activities in both regions. With about 61% of the beneficiaries in the North-West region and 39% of the total beneficiaries received agriculture and livelihoods related support like poultry, home gardening, cash for income generating activities and farming. The Cadre Harmonise analysis was just concluded on 6th March 2020 and results being finalized to give an up to date situation of the Food and Nutritional insecurity situation. Though COVID-19 is currently not confirmed in the NWSW regions however precautionary measures have been put in place which have currently minimized activities however guidelines and strategies are adopted to ensure that the affected population are still being served while aid workers remain safe.
