GBV Referral Pathways NWSW – GBV Sub-Cluster
CLUSTER UPDATES

(IM, 2021 Mid-Year Review, GBV Mainstreaming Training Update, FSC Strategy HPC 2022....)
As of July, 20 partners collectively assisted 203,449 people with food, agriculture, and livelihoods humanitarian assistance, out of which 91 percent of the beneficiaries received food items through either in-kind, cash or voucher modalities and 7 percent received assistance through cash/voucher modalities. WFP’s new warehouse in Mutengene became operational in July 2021 to support easy delivery of food in the SW region and address other logistics needs of partners in the region however, imposed lockdowns continue to hinder the activities in NW region depriving about 37,000 people of food assistance. NRC just launched an integrated food security approach to promote a long-term impact amongst the beneficiaries where 1,880 people received both food and income generating support at the same time while FAO intensifies its project on market gardening production in Douala and Buea in order to set up 48 Farmers Field School.
GBV Mainstreaming Training Update...

• Training in Buea on 18th and 19th August 2021 with 20 participants

• **Objective of Training:** To strengthen the operational capacity of Food Security Cluster partners in the area of GBV mainstreaming for food security programming.

• **Pre and post assessments** were administered to the participants as an online survey.

• The survey showed an **overall 12% improvement** of the participant’s understanding of GBV mainstreaming as compared to before the training.

• Other assessment techniques were also applied like, recap online quiz, outdoor activities and end-of-training evaluation survey.

GBV Mainstreaming Training Update...

What Next?
As the last activity of the training, participants and the cluster both outlined certain points to be adopted as action plans in ensuring GBV mainstreaming in the Food Security programming, this document is being developed and then to be presented to the whole cluster partners for adoption.

Recommendations

1. Partners are encouraged to ensure integration of gender-related sections in their several internal monitoring and reporting tools, this will allow better presentation of sex and age disaggregation and case management.

2. Report to the cluster monthly 5Ws monitoring tool with accurate Sex and Age Disaggregated Data.

3. Cascade knowledge and lessons learnt from this training to other staff of your organizations.

4. Always have questions regarding GBV in assessment questionnaire to help improve our evidence-based advocacy.

5. Develop and/or improve complaints and feedback mechanisms to collate and address GBV related issues while assuring safe and confidential avenue to the affected persons.
In preparation of the upcoming HPC 2022 process, the FSC is currently drafting a strategy document which will highlight vision and priorities of the cluster.

The FSC partners are expected to take into account this document throughout their planning and implementation stages for 2020 programme cycle.

Inputs are being made to this document and final draft will be shared immediately after validation.

**Goal:** to facilitate an impactful humanitarian response to the affected population due to the Anglophone Crisis through ensuring food security.

**Objective:** to ensure a more coherent and effective humanitarian response by organizing groups of agencies and NGOs to respond in a strategic manner across the Food Security Cluster
Cluster Strategic Objectives

SO1: Provide unconditional food, cash transfers to IDPs, returnees and local vulnerable population.

• Indicator:
• IND1: Number of people who received food assistance through in-kind/cash/vouchers

SO2: Provide assistance to IDPs, returnees and host population to improve their food and nutrition security through agricultural livestock and fishery support (small ruminant, local poultry, table birds, piggery, fishery and agriculture).

• Indicators:
• IND1: Number of people supported with agro-based inputs (seeds, tools, fertilizers etc...) for farming activities
• IND2: Number of people supported through livestock production (poultry/fisheries etc...)
• IND3: Number of people who are being supported through income generating activities (grants, small business)

SO3: Conduct food security assessments (CH, mVAM, FSMS, JAM, PDM, Multisector, ENSAN) to support and reinforce humanitarian planning the Nexus Humanitarian-Development and Peace.
PARTNER UPDATES
• FATWG – Thursday 16th September 2021
• ALTWG – Friday 17th September 2021
• Next FSCC meeting is Tuesday 5th October 2021.
THANK YOU
