

## CO1. ENSURE IMMEDIATE ACCESS TO FOOD

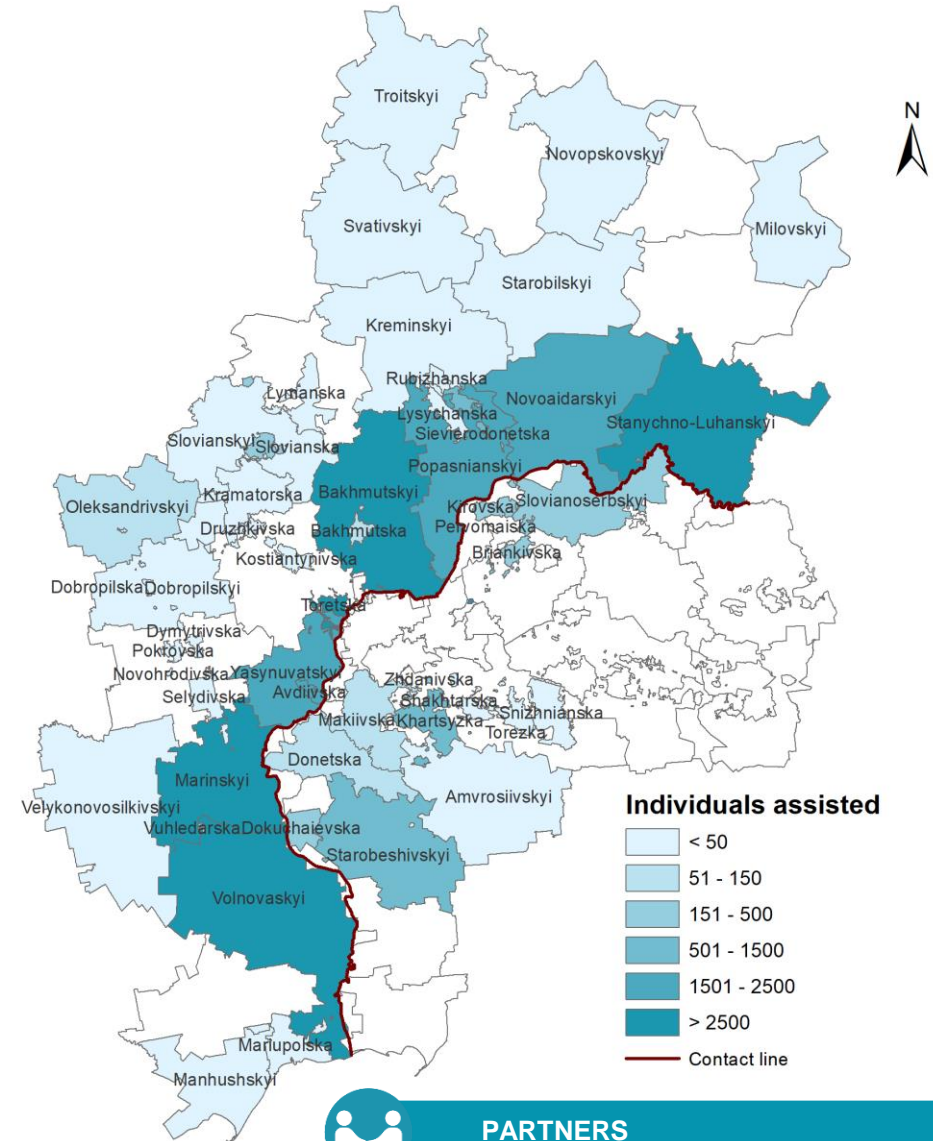

The partners collectively reached **31,256** (or 28%) people in October - December out of 109,721 people targeted. Since June 2020, the FLSC target is based on the revised 2020 HRP, which includes the COVID-19 target. The fourth quarter achievement is 63% higher than the previous quarter when 19,209 were assisted.

9 organisations contributed to the response in GCA side: NRC (32%), ASB (19%), CF "Bridge" (12%), ACTED (11%), Emmanuel (7%), Caritas (4%), TGH (1%), DRC (1%), Proliska (less than 1%). Other partners operating in NGCA contributed 13% of the food assistance in the fourth quarter. Cash for food assistance accounts for 63%, followed by in-kind modality (36%) and vouchers for food (1%).

Despite the number of people reached in October – December, the response gap is still significant. The lack of access to NGCA, funding, and quarantine restriction are the primary challenges encountered by the partners in the fourth quarter of 2020.

## PEOPLE ASSISTED BY RAION

### PARTNERS

**11** FSL Cluster partners provided food assistance (4 NGOs, 7 INGOs, 1 UN agency)
