Central African Republic: Quarterly response monitoring dashboard

Period covered: January to March 2021

CENTRAL AFRICAN REPUBLIC
FOOD SECURITY CLUSTER

SITUATION

The updated IPC analysis conducted in March 2021 indicates that, for the period April - August 2021, 2.29 million people will be food insecure in Crisis (Phase 3) or Emergency (Phase 4).

For the period April - August 2021, which coincides with the lean season, approximately 633,000 people have been classified as Emergency, while approximately 1.66 million people have been identified as Crisis. For this period, however, humanitarian funding has not yet been fully mobilized to ensure a comprehensive response (coverage of food needs and food production/restoration of production capacities) that considers the significant increase in needs.

About the number of people assisted in the first quarter of 2021, it should be noted that most beneficiaries have only been assisted once (especially beneficiaries targeted for direct food assistance). Therefore, despite the 56% of the target being reached, gaps remain as it takes at least 3 months of assistance to meet the needs of vulnerable populations

PEOPLE IN NEED

COMPARISON OF TARGETED AND REACHED PEOPLE PER STRATEGIC OBJECTIVE

SO1 Improve the availability and access to basic foodstuffs through the general distribution of food.

With the post-election crisis, the number of people assisted under SO1 exceeded the number targeted. Indeed, the targets considered here did not include the increased needs generated by the post-election crisis. For example, some organizations assisted over 120,000 unplanned people affected by the election crisis with a half a food ration..

Targeted: 750 K

119%

SO2 Improve the resilience of populations vulnerable to food crises by strengthening their capacity.

During the first quarter, the assistance focused on agricultural campaign for vegetable/market gardening. The main crop campaign will be held during the second and third quarter of the year.

Targeted: 1.1 M

10% | 90%

SO3 Capacity building of national (state) partners

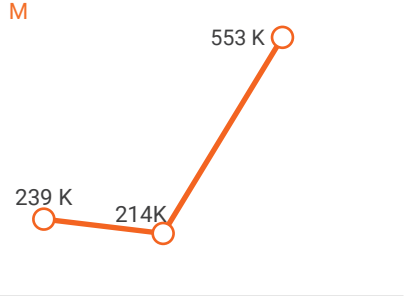
No partner has contributed to this outcome

Targeted: 500

Beneficiaries reached in the first quarter compared to the total number of people targeted for the year.

TREND OF PEOPLE REACHED REACHED PER MONTHS

Quarterly cumulative total: 1 M



TYPE OF BENEFICIARIES ASSISTED BY THE RESPONSE

Host communities	6 K
Returned	8 K
Vulnerable households	28 K
Mixed*	963 K

* Group composed of: host community, returnees and vulnerable households
