

SNNP: Agriculture Cluster Regional Response Dashboard

January - June 2023

OVERVIEW

In 2023 the agriculture cluster task force continued supporting the affected population in SNNP region, with in the reporting period the cluster has supported 121,024 vulnerable people to start recovering from natural hazards, through targeted programming. This means the achievement is not fully addressed the need of affected population as per the plan due to grossly underfunding of national agriculture cluster at 4% of the \$ 276 million funding required. And other significant reasons on the ground.
