

HRP 2021 Target

1.27M

People Reached Monthly

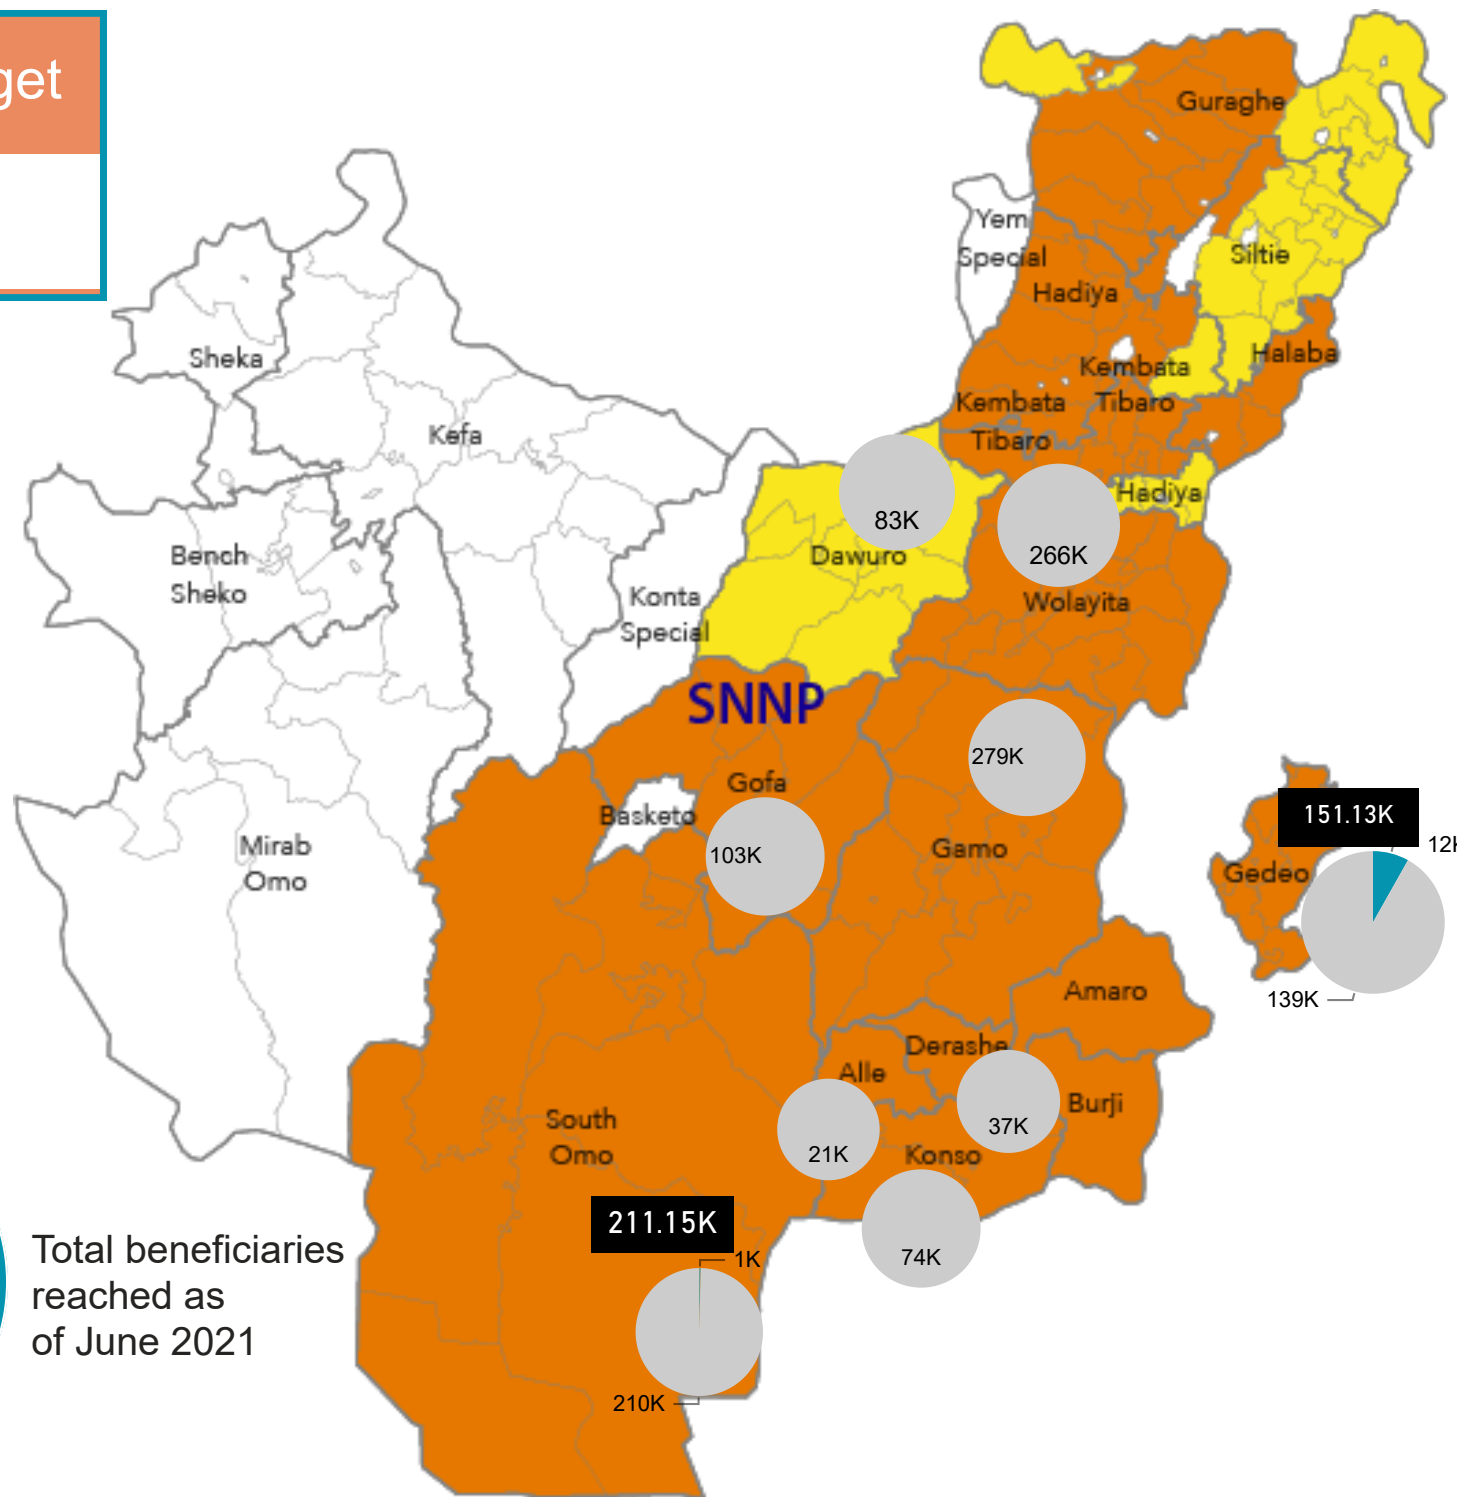

SNNP GAP ANALYSIS

Total Number of People Targeted Vs Reached

13K

Total beneficiaries reached as of June 2021

IPC Situational Overview Jan- June 2021:

In total 12.9 million people (24% of the analysed population of about 54 million) are expected to face high levels of acute food insecurity (IPC Phase 3 or above) despite planned humanitarian food assistance and other development interventions. This includes 5% of the population (about 2.6 million people) classified in Emergency (IPC Phase 4) and 9% (about 0.3 million people) classified in Crisis (IPC Phase 3). Out of 12.9 million people in IPC Phase 3 or above, who require urgent action to save lives, reduce food gaps, restore livelihoods and reduce malnutrition, 18% in SNNPR.
