

Food Security Sector – Gender Action Plan (GAP) -2022

JRP Objective	Sector Strategy Objective	Sector Indicator	Gender Mainstreaming or Targeted Gender Activities	Rationale	Responsible	Indicators
State the JRP objective this falls under	State the sector strategy from JRP 2022 this falls under	State the sector indicator from JRP 2022 this falls under	State the activities done to mainstream gender or directly address the needs of women and girls. To help inform this, please look at the Gender Tip Sheet for your sector, as well as the Gender with Age Marker. You do not need too many, keep these actionable and concise	State why/how you think this will lead to greater gender equality and the empowerment of women and girls (i.e. what are the outcomes of the activities)	If you have sub-sectors or task teams in your sector that would be the ones taking this on, please mention. If this is the responsibility of a specific staff (i.e. sector coordinator, IM, etc.), please mention.	Please add a SMART indicator which would be monitored to assess whether the activities have been implemented and have had the desired outcome
SO1, SO2, SO3	Objective 1: Ensure and sustain the timely provision of life-saving food assistance for Rohingya refugees/FDMNs	<ol style="list-style-type: none"> # of refugees receiving regular food assistance through the primary sources of e-voucher outlets and fresh food corners. % of refugee households reached with timely food assistance in case of a disaster. % of refugee households with an acceptable Food Consumption Score. % of refugee households using a consumption-based coping strategy. 	<ol style="list-style-type: none"> Identifying and reporting number of beneficiaries by sex, age, disability, and other gender diverse groups (LGBTQI) as a core requirement reached through cash and food distributions. Provide basic awareness through training to FSS partners and front-line staff and Volunteer on gender, GBV, Protection, Disability Inclusion and PSEA mainstreaming in FSS. Disseminate gender-sensitive key awareness 	The presence of sex, age, disability - disaggregated data – in addition to understanding gender practical and strategic needs, roles, responsibility norms, regulation, social position, and relations – helps to unpack the reasons why persons with different sex, age, disability may be more vulnerable to food insecurity than the other and take appropriate measures for ongoing and scaling up of FSS initiatives.	FSS Partners and FSS GFP	<ol style="list-style-type: none"> # of beneficiaries (disaggregated by sex, age, and disability-SADD) reached through cash and food distributions. Percentage of households (disaggregated by sex, age, and disability of household head) with Acceptable Food Consumption Score. Percentage of e-voucher outlets accessible for persons with disabilities and elderly people. Percentage of gender-sensitive e-voucher outlets¹ Gender-sensitive, inclusive, and protection-sensitive SOPs for porter services are being developed. # of awareness raising sessions Food Security and COVID-19

¹ Separate lines for women and men, separate wait areas and washrooms, and increased number of women who can serve women.
