Cluster Response updates: Food Assistance and Livelihoods
Information Management

Issues:
- Reporting to the 4W has become increasingly late. Many partners are reporting after the 10\textsuperscript{th}.
- The coming months will see significant down scaling for IMO capacity in Mozambique. This will impact reporting.

Updates:
- The IMWG will be doing a training on data visualization tentative date: 17\textsuperscript{th}, 18\textsuperscript{th}, 19\textsuperscript{th} March. Will be sending out a registration sheet as soon as finalized.
- New FSC National IMO hiring process: Candidates have been short listed and sent for testing
- 4W Matrix was posted to the FSC website and shared with the cluster

The FSC Contact List/Directory and 4W Matrix, have been updated and posted to the following websites:
- Food Security Cluster: https://fscluster.org/mozambique/documents

Food assistance SOPs review-(FSC)
Food assistance SOPs review-(FSC)

Background

• FSC developed SOPs for food assistance to standardize & define future food assistance responses.

• Main purpose of this SOP was to provide guidance on the process to be followed for food assistance response

• SOPs base on 5 principles:-
  – How to meet food needs of all affected populations;
  – How best to enhance programme design and ensure that programme objectives are met;
  – Operational feasibility considering constraints faced in the Mozambique context;
  – Community and beneficiary ability to adhere to set out guidelines; and
  – Coherence and synergy with government policies and programmes.
Food assistance SOPs review-(FSC)

• The main areas covered by this SOPs are
  a) operational planning
  b) targeting and registration
  c) conditionality
  d) transfer values and
  e) transfer modalities.

• SOPs was drafted by a technical task force
• SOPs was a valuable tool in the coordination of food assistance to cyclones affected population.
• It is imperative that lessons learnt from using SOPs is immediately reflected to ensure that it remains relevant.
SOPs component for review

• Operational planning:
  a) Allocation of geographical areas for assistance;
  b) Determination of beneficiary numbers for assistance;
  c) 4/5W;
  d) Information sharing.

• Beneficiaries targeting and registration criteria for both rapid and slow onset emergencies including
  a) geographical targeting;
  b) households targeting;
  c) verifications;
  d) registration.
Food assistance SOPs review-(FSC)

- Conditionality of food assistance: -
  a) Unconditional assistance;
  b) Soft conditionality assistance and
  c) Conditional assistance.
- Food assistance transfer value taking into consideration recently endorsed rationale for calculation of food transfer value (done).
- Transfer modality in the context of Mozambique multi-shocks coexistence.
- Guidelines on AAP with an emphasis on feedback and complaint mechanisms and protection of populations during intervention periods, guidelines on productive assets and asset creation activities and monitoring framework.
- Annexes of the SOPs
- **Required action**: Task force to review the SOPs.
