Training needs for 2022
Support to MSMEs and Cooperatives Interactive Dashboard covering assistance provided in 2021 and 2022 (Q1). The dashboard has been developed in close cooperation between the Livelihoods and Food Security and Agriculture Sectors.
Um Salloum started a partnership with one of the landowners of Al-Rouge plain and received 110 Euros in agricultural support vouchers to grow summer vegetables through a project by FSL Cluster partner Hand in Hand for Aid and Development, promoted by the NGO Welthungerhilfe. The project provided productive support for hydrocarbons, pesticides, fertilizers, seeds, and agricultural advice.

Um Salloum’s sons start work early in the morning, watering, planting, weeding and harvesting in the fields. Just before sunset, they will come home with beans, peppers, tomatoes or eggplants. In the past, they usually only had flatbread and lentils to eat in the evening – barely enough to feed the family and certainly not varied enough to stay healthy.
