During the calendar months of August, FSC partners assisted 365,123 beneficiaries with seasonal inputs. Cumulatively, for the 2019 GU season, 1,150,747 people have been reached: representing 48% of target. For the responses provided during the month of August, IR contributed 88%, Human Appeal 4%, VSF Germany 4%, WHH 2% and VSF Sussie 1%. The rest of the partners contributed less than one percent.

Sool region has the least coverage on livelihoods seasonal inputs and some parts of W. Galbeed, Bari, Mudug, Gaaladdud, Lower Shabelle and Lower Juba. Middle Juba and a few other areas in Galgaduud are in-accessible due to insecurity and other constraints.

Quality drought-tolerant seed varieties needed to replenish depleted seed stocks, as well as farm tools, irrigation and cultivation services to prepare for the fourth coming season.

The map represents cumulative support for the period February to August 2019.
