Cluster Obj 2: Livelihood Seasonal Inputs: (Agriculture and Livestock), as of March 2021 Post Dyer season

For the responses provided in March FAO contributed 79%, AVSI 12%, ACF 5%, Mercy Corps 2%. The remaining 1% was provided by IRC and AWI combined.

There are critical funding shortfalls for livelihood protection. Without urgent assistance, 900,000 people in IPC 3 and 4 will not receive the emergency seasonal livelihood inputs they need, undermining production and worsening the impact of dry/lean seasons. This will lead to deepening household food insecurity and a higher humanitarian caseload later in the year.

NUMBER OF BENEFICIARIES TARGETED VS ASSISTED BY DISTRICT

Strategic objective 2 update

Objective 2 (Provision of seasonal livelihood inputs & Livestock asset protection). In March, a total of 248,416 beneficiaries have been assisted with farm inputs, animal restocking, livestock treatment and CAHWs trainings. Cumulatively starting February, 336,042 beneficiaries have been reached (27%) of the seasonal target. The season began in February and will run up to July 2021.
Gap analysis: Total number of people targeted vs reached, March 2021
