During the month of April, FSC partners assisted 68,626 beneficiaries with seasonal inputs and livestock asset protection related responses.

For the responses provided in April, Relief International contributed 63%, Islamic Relief Worldwide 13%, WARDI 6% WVI 5%, CARE 3%, ADO 3%. Combined, WHH, DRC, FAO, mercy corps, SCI and AAH contributed to the remaining 6%.

Cumulatively, starting February, a total of 211,828 beneficiaries have been assisted with farm inputs and land preparation and animal restocking (shoats). As of end of April, the number of people reached accounts for 23% of the seasonal target (909,130): thus, partners need to scale up.
