Cluster Obj 2: Livelihood Seasonal Inputs: Agriculture and Livestock), as of November Dashboard (Deyr Season)

**RESPONSE BY MODALITY**

- **2,261,264***: Livelihood inputs – In-kind (Agriculture and Livestock)
  - * Refers to people assisted through SO2 from Aug - Nov
  - 99% Cash
  - 1% Voucher
  - USD 2 Million Cash/Vouchers Transferred

**PEOPLE TARGETED**

- **2.5 Million**
  - 50% men
  - 50% women

**PARTNERS REPORTING**

- **22 partners**

---

**Strategic objective 2 update**

**Locust** breeding is ongoing in Somaliland, Puntland and Galmudug (Mudug). An estimated 70,000 hectares of land has been invaded by hoppers and breeding adults. So far, the Locust population has been confined to rangeland/grasslands (in the north). Once they mature the locusts are expected to migrate in swarms and move south towards the Ethiopian border area of Somaliland as well as Jubaland, Southwest State and Hirshabelle.

FAO (with financial support from DFID) is closely working with Ministries of Agriculture and partner organizations on surveillance and control efforts in the north to prevent spread to the south. To date, FAO has facilitated surveys covering over 20,000 hectares in Puntland and Somaliland. Twenty Ministry of Agricultural Development staff have been trained on the application of bio pesticide in Somaliland where spray operations have just started.

---
