DROUGHT RESPONSE - JAN 2022

Livelihood Support - Drought response

- Galmudug: Target 169,235, Response 0
- Hirshabelle: Target 188,295, Response 14,808
- Jubaland: Target 135,850, Response 97,230
- Puntland: Target 267,710, Response 0
- Somaliland: Target 246,510, Response 0
- SWS: Target 0, Response 0

Target vs. Response
 Partners had to stretch the muscles and respond to the urgent needs of the drought along with the regular responses.

Lack of funding for partner projects, this reduced response scale and FSC only focusing people IPC face 3 or worse.

Access remains a key challenge. Districts with populations of considerable number of needs remain inaccessible. This forces IDPs influx from those districts to mainly major urban centers, putting more pressure on existing services and humanitarian concentration in urban and relatively secure areas.
Thank you!
