**Operational Updates**

**Dry Spell & Drought in Sudan**

Dry spell and drought are exacerbating the humanitarian situation in Sudan (14 states affected) characterized by underlying vulnerabilities. The situation further led to increased migration from rural to urban areas, placing additional pressures on declining food production. Herders are often forced to seek alternative sources of food and water for their animals, which can create conflict between communities, competing for the scarcely available resources.

**Sudan Humanitarian Fund – SHF 2022**

SHF and FSL has continues to allocate to the dry spell response. We have allocated already 3.9 million to North Darfur, Kassala and North Kordofan. With currently processing cases for funding for West Darfur, Red Sea, East Darfur, Central Darfur, South Darfur with around 6.5 million. And considering launching a case for Gedaref of 1.3 million, bringing the total dry spell response to 11.7 million. We expect that all above mentioned allocations will be implementing by April 2022.
Fire Incidents - Sudan

On 6 March 2022, rising temperatures in Wad Al Maki village, Um Dam Haj Ahmed locality, North Kordofan, led to the outbreak of a fire which affect 83 houses were completely burnt down and between 150-250 households were displaced and are currently seeking shelter. With 60 households also displaced from Bara, North Kordofan and 55 houses were completely burnt.
Engage with relevant FSL partners to improve data collection and availability of data for IPC analysis; i.e., Food Security assessment, CFSVA, CFSAM, Crop cutting. Encourage partners to share their data/assessment.

IPC team preparing to have IPC Malnutrition to Sudan, to analyze malnutrition in the country as Sudan faces high rates of malnutrition. Data/figures needed from different related sectors, government, and organizations.
Funding Updates for FSL 2021

FSL Funding 2021

- $236,866,529 (45.5%)
- $520,986,510

CERF 2021
SHF 2021
Rest of Funds 2021

Requirements 2021
Total Received 2021
141 localities within 15 states were reached through different interventions under Food Security Sector in 2021

30 partners reporting their interventions during 2021
The highest percentage of FSL target was reached 3rd quarter with 65% covered, and the lowest was with 32% in the 4th quarter.

(HADC)
In January 2018, HADC was registered in **Ukraine**, and in September 2018 we received accreditation to work at the **NGCA in the Donetsk region**, where the military conflict has been going on for 8 years. In September 2019, HADC became eligible for partnership during the new quadrennial operational cycle of UNHCR, and also successfully passed the audit of the Ukrainian Humanitarian Fund OCHA UN.

**Our partners in Ukraine:**

- **ASB** (with the support of the German Ministry of Foreign Affairs)
- **DRC** – Danish Demining Group
- **Ukrainian Humanitarian Fund** (OCHA)
- **UNICEF**
- **ECHO.**
Projects currently operating in Ukraine:

- the project in partnership with ASB with funding from the German government. It is a 2-year project that will cover the need for food for 7 months (2400 beneficiaries). Beneficiaries are retired people (age 65+), large families, single parents, IDPs, disabled people. The priority is given to people that fall into several categories of vulnerability (single retired people, people with chronic and mental illnesses). In total there will be issued 13200 food kits.

- issuance of food kits and agricultural grants with funding from Ukrainian Humanitarian Fund. A 7-months project to support households led by women, also disabled people and retirees who live in the rural area.
**HADC staff** is a team of professionals with more than 8 years of experience in the humanitarian field, in particular, specialists who took part in the implementation and coordination of projects of various UN agencies and other international organizations in the NGCA of the Donetsk region, where a protracted military conflict continues.

**In Sudan, the HADC team** currently consists of 15 employees, and we also have the ability to recruit more than 200 local employees (work that was carried out by the HR department of HADC).

**As part of the project activities**, it is planned to involve employees who work in our main office in Ukraine. In particular, they will be involved in supervising project activities at all stages of its implementation and training local staff.

**One of the main tasks of HADC in Sudan** is to leave a trained and experienced staff of local employees in the country, who will be able to carry out humanitarian activities in the future.
Experience of employees in the implementation of humanitarian projects:

- Food Voucher Program, in partnership with Pope for Ukraine;
- Issuance of food packages, in partnership with WFP;
- Provision of humanitarian aid in the form of food kits, in partnership with DRC;
- Multipurpose information and consultation center for assistance to civilians, in partnership with UNHCR;
- Issuance of solid fuel to residents of the territory not controlled by Ukraine, affected by the military conflict, in partnership with Save the Children, IOM, UNHCR;
- Provision of one-time multipurpose assistance (IPA), in partnership with UNHCR;
- Express courses in construction specialties, in partnership with UNHCR;
- Provision of basic necessities to IDPs affected by the military conflict in eastern Ukraine, in partnership with the UNHCR;
- Issuance of humanitarian aid in the form of non-food products and solid fuels, in partnership with IMC;
- Multi-sectoral needs assessment, in partnership with REACH INITIATIVE;
- Assistance in the field of sanitation and hygiene to communities affected by the conflict, in partnership with the IOM;
- Assistance to the population affected by the armed conflict in the eastern regions of Ukraine, in partnership with the IOM and so on.
In 2021, HADC registered a branch office in Sudan.

In Sudan, we are members of the **FSL Cluster, Protection** (incl. GBV subsector), **WASH, Shelter&NFI, Nutrition**, as well as **RCF** and **INGO Forum**, regularly participate in meetings and provide all the requested information.

**We have 7 multisectoral projects included in the 2022 Humanitarian Response Plan:**

- Protection (5)
- FSL (1)
- WASH (2)
- Shelter&NFI (3)

We have now completed the audit process from SHF and are awaiting the outcome.
The project included to the HRP-2022 under the FSL Cluster:

**Agricultural support for host communities and those who have returned to their homes in South Darfur**

The project is aimed at solving the problem of stimulating and supporting the development of personal subsidiary plots and helping the most vulnerable category of beneficiaries to create their own source of livelihood.

The main objective of the project is to provide support to IDPs and their host communities in Sudan in order to fight severe food insecurity and to save the lives of highly vulnerable populations, victims of conflicts and natural disasters.
Our organization has established contacts with representatives of local authorities, as well as with leaders of local communities. Moreover, we maintain close contacts with representatives of several tribes, which, in turn, allows us to quickly receive and collect information about humanitarian needs on the ground.

The main office is located in Khartoum, however, we have full access to all states of Darfur, the Red Sea, Kordofan, Gedaref and are ready to start humanitarian intervention in these locations in the short term.
Kindness. Mercy. Peace
We help build the future!
Sudan CCPM 2021 Results

Overall satisfaction with the meeting

How would you rate these Food Security Cluster products
Sudan CCPM 2021 Results

Has the Cluster coordinated or supported in conducting any sectoral or inter-sectoral needs assessments and surveys

- Good
- Satisfactory
- Unsatisfactory
- Weak

Is the Cluster’s response priorities based on specific assessment (IPC/CH, FS&L, Multi-Sectoral, etc) and analyses of risks, needs, gaps

- Good
- Satisfactory
- Unsatisfactory
- Weak
Sudan CCPM 2021 Results

Has the Cluster developed and agreed upon a response plan - such as the HRP

How do you rate the usefulness and overall quality of FSL guidelines
Did the FS Cluster adopt an informed, clear criteria and transparent processes in the HC’s overall funding plan

Is information on needs and activities shared by your organization to the Cluster reflected in Cluster’s Information products
Sudan CCPM 2021 Results

Have FSL information products and updates supported and influenced your organization’s decisions

- Good
- Satisfactory
- Unsatisfactory
- Weak

Does the sector facilitates the work around emergency to address potential Food Security needs as a result of hazards and risks

- Good
- Satisfactory
- Unsatisfactory
- Weak
Sudan CCPM 2021 Results

Have issues requiring advocacy messages been discussed during Cluster's meetings

- Good
- Satisfactory
- Unsatisfactory
- Weak

Has the Cluster raised and discussed with partners the key issues raised by affected people

- Good
- Satisfactory
- Unsatisfactory
- Weak
How do you rate your overall satisfaction with the Food Security Cluster in your country

The objective of Strategic Advisory Group (SAG) is to provide strategic guidance and support to the sector and facilitate accountability to its partners.

The SAG will consist of 7 individuals representing different organizations (1 WFP, 1 FAO, 1 FSTS, 2 NGO’s, 2 INGO’s, 1 Donors).
