Pre FSL Cluster meeting: preparedness for Ebola – No hand shaking!

Hand Washing
Wash hands with soap and water for 20-30 seconds. If hands are dirty, wash hands with soap and water, not with hand sanitizers, for 40-60 seconds. Use hand sanitizer or chlorinated water, if soap and water are not available.

When to Wash Hands
- After using the ladies
- After changing diapers or cleaning a child who has used the ladies
- After blowing your nose, coughing, or sneezing

Adapted from World Health Organization (WHO)
FSL Cluster Meeting, Juba 22nd January 2020

Main conference Room- OCHA
Agenda

- Protection risks and mitigation in FSL Intervention - Protection cluster, Nickolas
- 5Ws presentation – FSL cluster- Monica
- Updates from the NAWG –FSL Cluster-Viola
- Draft FSLC integration strategy for 2020 based on consultation with famine response clusters
5Ws & HRP 2020

- 5Ws Reporting
- HRP and HNO 2020 Bulletin
- HRP Partner Presence Maps
Purpose of the strategy: clear achievable strategy/ approach for moving the ‘integration’ agenda forward in 2020
Geographical Convergence

Use of joint messaging around counties that are IPC 4 and 5 Beneficiaries receiving food assistance and complementary livelihood support) across the nutrition, education and health facility catchment areas; and in communities where WASH interventions take place. M&E: number of beneficiaries reached; inter sectorial M&E around number who have received FSL, Health, Nutrition, WASH support.
Vulnerability Targeting

blanket targeting for GFD around distribution sites; but vulnerability targeting for FFA and Livelihood support; but given the scarcity of resources prioritization made in the following Ways.

• Geographical prioritization: IPC area phase 4 triggers greater FSL & Nutrition resources
• Within these areas resources are targeted based on ‘vulnerability’ and not status according to
• the criteria established by local communities
• households with mothers and children within the 1,000 days window
Specific operational actions

FSLC to target ALL 1,000+ Nutrition facilities
Build the capacity of the community nutrition volunteers (CNVs) as part of the FSL partner training both in the community and at the nutrition facility;
Support dissemination of ‘best practice’ amongst FSLC partners

- At the cluster meetings, TWGs
- e.g. FARMSTEW
- Share experiences from our follow cluster coordinators
