FSL Cluster Meeting, Juba
27th November, 2019: OCHA main conference Room
Agenda

• Flood impact on crop & livestock – Nicholas Kerandi (FAO)
• WFP response plan and current progress – Ernesto Gonzalez (WFP)
• HRP update: process/ criteria/ and planning for feedback – Viola & Isaac (FSLC)
Pre FSL Cluster meeting: preparedness for Ebola – No hand shaking!

What everyone needs to know about Ebola

Ebola is a serious disease which affects human beings and wild animals (monkeys, gorillas, and chimpanzees). An outbreak had been ongoing in the Democratic Republic of the Congo since August last year and recently an armed attack was recorded in Equateur making the concerns of the possible spread to neighboring countries including DRC higher.

**How do people get Ebola?**

- Ebola infections are spread through direct contact with the bodily fluids of sick people such as blood, saliva, semen, vaginal fluid, and stool.

**WHO IS MOST AT RISK?**

- People at risk include health workers, relatives and caregivers of the sick, and those who have close contact with the bodily fluids of the sick.

**Signs & Symptoms**

- Mild fever
- Headache
- Red eyes
- Body pain
- Stomach pain
- Vomiting
- Loss of appetite
- Skin rash

**General Advice**

- Wash your hands
- Use protective clothing
- Avoid eating ‘wild meat’
- Do not share cutlery, cups, or other eating utensils
- Do not touch sharp objects

**Hand Washing**

Wash hands with soap and water for 20-30 seconds. If hands are dirty, wash hands with soap and water, then with hand sanitizers, for 40-60 seconds. Use hand sanitizer or chlorinated water, if soap and water are not available.

1. Wet hands with water.
2. Apply enough soap to cover all hand surfaces.
3. Rub hands together and scrub everywhere.
4. Wash the front and back of your hands and in between your fingers.
5. Rinse hands with water.
6. Dry hands properly using a single use towel or air dry.

**When to Wash Hands**

- Before eating
- After changing diapers or cleaning a child who has used the toilet
- After blowing your nose, coughing, or sneezing
- Before, during, and after preparing food
- Before eating food
- Before and after caring for someone who is sick
- Before and after cutting a cut or wound

“Orange the World: Generation Equality Stands against Rape”
• the International Day for the Elimination of Violence against Women, The biggest platform used to call for prevention and elimination of violence against women and girls, the **16 Days of Activism against Gender-Based Violence** kicked off on 25th November.

• This year 2019, GBV sub cluster under the leadership of UNFPA and IRC in collaboration with Ministry of Gender Child and social welfare will mark the 16 Days of Activism against Gender-Based Violence, from 25 November to 10 December, under the theme, **“Join Hands: Stand against Rape”** a them that South Sudan modified from the Global Theme.
HRP update:
Process/ criteria/ and planning for feedback

27 November 2019
PROCESS

- **16th – 29th Oct.** – **Partners submitted proposals** (Special SAG to extend deadline to 24th & increased PRT by 4 members (2+2). Further extended deadline on OCHA’s request, also returned the projects to partners who requested them for editing)

- **30th – 31st Oct.** – **Pre-screening of projects by CCs and IMO**

- **1st – 2nd Nov.** – **Peer Review Team members received random projects** (6 teams, consisting of 2 members, received 30 – 32 projects each)
  - o **PRT Reviewed and Scored** the projects 2nd – 6th Nov.
  - o CCs selected **projects that scored 60 & above**, recommended by the PRT on 7th
  - o Submitted selected projects to **OCHA for analysis on 7th Nov.**

- Nov. 11th & 15th – Selected projects sent to partners to address comments agreed by CCs

- 19th Nov. CCs approved projects and **final submission to OCHA for tabling to HCT**

- 14 projects their budget was reduced further to ensure 645Mn envelop and to have more NNGOs
CRITERIA FOR SELECTION - Cluster specific score considerations

1) **Criticality (score 60)**

- Severity of need to be addressed
- Degree of risk / vulnerability of target population
- Extent to which partner project activities directly address the needs
- Extent to which partner project activities support the cluster HRP 2020 strategy and framework (objectives, activities, indicators and targets)
- Integration with other projects from other clusters
- Extent to which project addresses cross-cutting issues, including gender, Protection Centrality, and Accountability to Affected Population

2) **Feasibility (score 40)**

- "Capacity of the partner to implement”
  a) Track record in the cluster (performance in existing projects)
  b) Ability to mobilize resources (as per HRP 2018 data)
- Value for money ($/beneficiary for similar activities)
- Access (operational space in target location)
- Partner presence and participation in the target location
GENERAL FEEDBACK

1) Need for the project is not captured well in the narrative – not specific to the target location
2) No reference for establishing the needs (not evidence-based / no sources of data)
3) Proposed activities are (scattered or so brief) not linked to the cluster strategy and the modalities
4) Activities for cash modality are not well explained including who will be targeted, the how of the different modalities (cash, GFD)
5) Activities are too ambitious to be completed independently and within the stated timeframe
6) Partner has NO ongoing activities or PRESENCE in the selected locations
7) Multi-cluster project is NOT linked with other clusters/partners for integration
8) Implementing WASH activities in Juba and NOT an operational FSL partner in the proposed location;
9) Partner only targeting one location which is not cost effective
10) Partner has not implemented similar HRP/projects in the targeted areas
11) Anticipated protection risks, plans to mitigate are not articulated clearly e.g BSEA
12) Mainstreaming complaint under AAP/feedback mechanism NOT explained, also how complaints and feedback will be addressed are not explained.
13) Plagiarism
