FSLC Partners Meeting, 6th August 2021
As the HRP runs until 2021, not clear if it will be updated and how, as it is not synced with the lean season – update from yesterday HCT
The GoZ has initiated a process lead by the FNC for updating the needs and defining the response framework for the next 12 months.

The process is ongoing, with the support of UN agencies.

It is still to be defined if and how a complementary analysis and/or response framework and/or plan will be developed too.

No HRP for 2022.

No IPC in 2021.

Updates from yesterday HCT.
FSL Coordination Structure

Background

• The CLAs (FAO and WFP) have initiated a reflection about the best and more appropriate FSL coordination structure to better fit into the Zimbabwe context.
• The core issue is about creating a more comprehensive platform, able to link up humanitarian and resilience building/developmental issues.
• A small task group has been constituted
• A quick survey has been submitted
FSL Coordination Structure

Survey results- July 2021

41 respondents

12 years of average experience in Zim

28 organisations (INGOs, NNGOs, UN)

FSL Coordination Structure

Survey results - July 2021

FSLC should focus primarily on humanitarian coordination?
- 66%

Food Assistance Coordination does not require further structures
- 62%

Livelihood Support Coordination does not require further structures
- 54%

FSLC Partners Meeting, 6th August 2021
Humanitarian and resilience/longer terms approach requires a common space of discussion and coordination, with all stakeholders represented.

Government and non-governmental organisations need to work closer to coordinate planning and responses (either humanitarian or developmental, or both)?
Is there a mechanism for properly coordinate long term projects

- **YES**
- **NO**
- **DON’T KNOW**
- **YES, but not fully working**
