Development of the agenda

1. Findings from Multisector Survey in Kapoeta East - AVSI	Next Steps / Action Points
<ul style="list-style-type: none"> • AVSI multisector survey in Kauto Payam, one of the isolated areas with less humanitarian intervention, and it experiences dry spell every year and depend on seasonal rainwater. • AVSI multisector survey in Kauto Payam, one of the isolated areas with less humanitarian intervention, and it experiences dry spell every year • Many people in Kauto like other any otherlike otherlike other South Sudanese are oriented on emergency programming and AVSI wanted to study people's understanding of the service provided to change the programming. • The sampling strategy used was a standard two-stage methodology. The sampling strategy used to conduct the multisector assessment was a standard two-stage methodology. methodology. methodology. • AVSI conducted a contextual analysis in Kauto payam in Eastern Equatoria one of the isolated areas with less humanitarian intervention and experiencing dry spell every year. The aim was to gain a holistic, multi-sectoral understanding of the communities in the areas of human development, economy and peace and governance. • Key findings shared on livelihoods, resilience and food security, agriculture and livestock with some concerns on worsening hunger in the community assessed, people are not able to buy food for their HHs, AVSI has tried to introduce some agriculture initiatives like Ox plough in Kauto Payam.. 	<ul style="list-style-type: none"> • Full Report
2. HRP 2024 Update-FSLC	Next Steps / Action Points

- ICCG HRP PiN and target joint analysis that was conducted between 16-17 October have deliberated on the final HRP PiN and Target and financial requirement for 2024 and the intersectoral severity mapping and prioritization based on need and severity on geographical and thematic.
- The expected funding cut to Donors have expressed concerns about funding cuts of up to 50% for 2024. This is the major concern that we need to put into consideration to align the 2024 HRP response to it, our. The FSLC PiN and Target will have to be reduced significantly as opposed to the current year to accommodate the changing situation of donors shifting the humanitarian funding to the development side and other countries soon as a new crisis is unfolding around the world. Donors are not shifting the humanitarian funding to the development funding; new strategies must be adopted to try to complement the two funding streams.

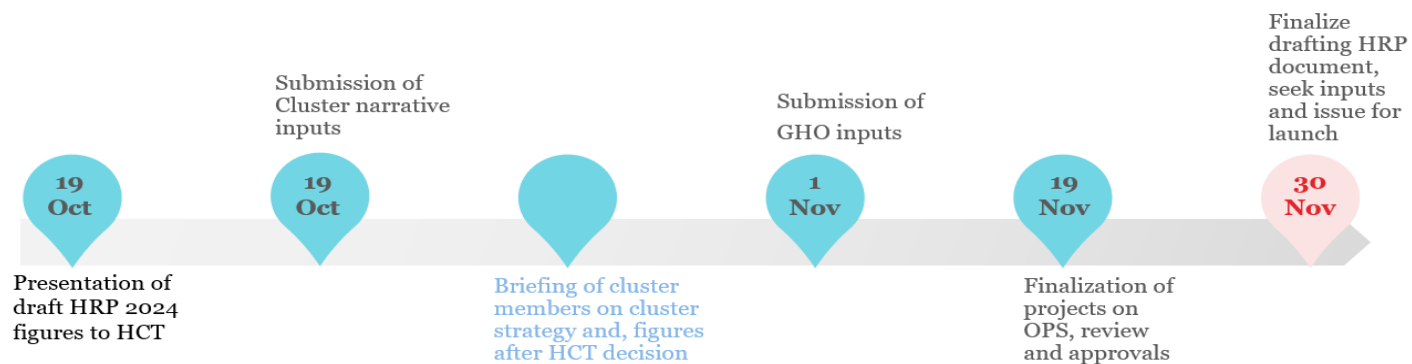

Key consideration for 2024:

- ✓ Funding cut to 50% in 2024 for some donors.
- ✓ Flooding and dry spells
- ✓ Inter and Intra communal violence
- ✓ Cattle raiding
- ✓ Access to humanitarian

- FSLC will keep partners updated on the HRP progress

Project module training to be conducted on 19 of Oct. [Link to the presentation](#)

Updated 2024 HRP Process Timeline

- The ICCG, HCT and Donors agree to have key advocacy messaging following the HRP clearly articulating the funding cuts and what humanitarians can respond to given the situation.

AOB: FSL Cluster members (if any)
