workshop: Integrating CP- FS in South Sudan

19 -21 Juba 2022

Child Protection Area of Responsibility
Food Security & Livelihoods Cluster

Workshop objectives

- (1) Develop a common understanding of the **linkages between child protection risks and food insecurity** in South Sudan
- (2) Develop knowledge and skills to **design, implement, and monitor integrated child protection and food security programs**
- (3) Identify **opportunities to strengthen collaboration** between child protection and food security sectors and **develop tools** to support integrated programming

All workshop presentation materials are available [here](#).
Agenda available [here](#).

HOW DOES FOOD INSECURITY AFFECT CHILDREN

Availability: "supply side" of FS; determined by food production, stock level, trade, food assistance

Access – economic and physical ability to procure safe and nutritious food.

Utilization – metabolism of food; affected by preparing, processing, and cooking of food; feedback practices

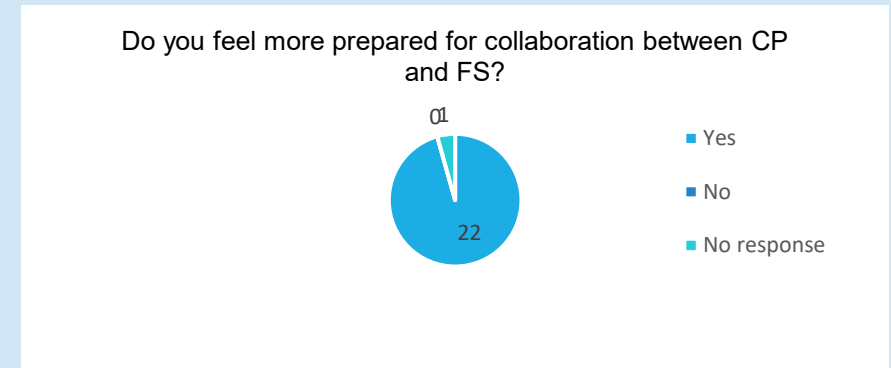

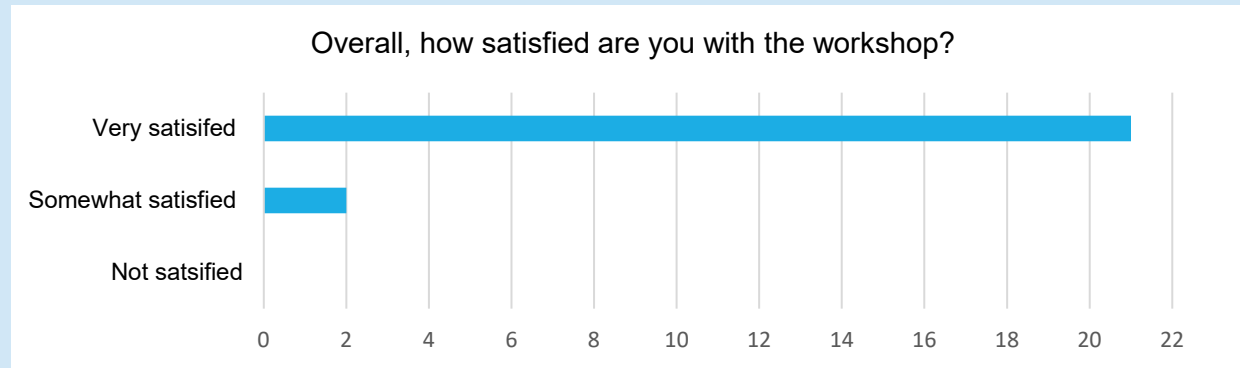

Stability – other pillars should not change due to cyclical events or sudden shocks

Participants and feedback

A total of **24 colleagues** from **UN agencies, INGOs, and NGOs** representing the **CP AoR and FSL Cluster** participated in the workshop.

Participants found the session on **key terms and concepts**, and **designing and measuring integrated child protection and food security programming** as the most useful sessions.

Recommendations included [additional sharing of best practices and lessons learned](#) from other contexts, as well as [additional materials, tools, and guidance](#) on planning, design, implementing, and monitoring integrated programs.

Next steps for CP-FS collaboration

Workshop participants identified **key actions** to strengthen collaboration between CP and FSL actors. The following actions were prioritized and will be developed over the next 2 months.

If you are interested in contributing to any of these action points, **[please reach out to the CP AoR or FSL Cluster!](#)**

Similar CP-FS virtual workshop to be organized in the near future to accommodate more partners

FSL Cluster Communication Etiquette

I. Decide on the level of formality:

- Concerns on coordination, needs assessments, seeking clarifications on accessing resources, meeting requests, sharing best-practices etc. – Cluster Coordinators
- Concerns on reporting (5Ws, FTS etc.), information request including gap analysis etc. – IM Officers

II. Consider timing:

- Cluster Secretariat follows UN workhours – **08:00Hrs to 16:30Hrs** (Weekdays)

III. Try being concise but thorough:

- Preferred communication modes – **e-mails**, phone calls & text message
- Don't forget to **copy** your supervisor or Head of the organization
- If phone calls, identify yourself and your organization at the beginning
