

Recommendations for Food Assistance

Food Security and Agriculture/Livelihoods Sector - Humanitarian Response Plan 2019

March 2019

- This guidance is developed following consultation with partners and technical working groups across hubs and should be used with sector HRP strategy and supplementary guidance on activity 1.2 – monthly food rations - for background and context.
- This guidance is an effort to ensure harmonized response through a minimum package recommended for each of the activity listed under the sector strategy for HRP 2019 and is applicable to all sector partners – HRP or non HRP.
- An estimated USD value for all the response packages has been provided but may vary based on currency fluctuation and various contextual issues across the country.
- The modality for delivering these response package should be contextualized as per the area of operation, implying all response packages can be delivered in kind, cash or voucher based on the feasibility of such modalities.

Activity (as per HRP log frame)	Description	Total target	Recommended targeting criteria	Recommended Package	Estimated USD value																																																							
1.1	Emergency response to crisis affected vulnerable people with short term food assistance through appropriate modalities.	1,200,000	<p>Blanket approach for all newly affected people who need immediate food needs for an initial 5 days and then repeat as per needs.</p> <p>Suggested modality is in kind for easy access to food. However, other modalities can be used provided its easy to access.</p> <p>Suggested timeline is 1-4 weeks based on needs; and access to cooking facilities to move to monthly food rations.</p>	<p>Minimum 2100 kcal per person per day Ready to Eat Rations (RTERs). Sample Items for RTER packages for 5 days for a family of 5/6 provided below. In case of households less than 5, divide kit content accordingly for a family size larger than 5/6 provide two kits per household.</p> <table border="1" style="width: 100%; border-collapse: collapse; text-align: center;"> <thead> <tr style="background-color: #D9E1F2;"> <th>Items</th> <th>Quantity in box for 5 persons for five days(Kg)</th> <th>Quantity in box for 6 persons for five days(Kg)</th> <th>Grams/ person/day</th> <th>Kcal</th> </tr> </thead> <tbody> <tr> <td>Fava Beans</td> <td>2.8</td> <td>3.4</td> <td>112</td> <td>80</td> </tr> <tr> <td>ChickPeas Paste/ Canned Humous</td> <td>3.6</td> <td>4.3</td> <td>144</td> <td>239</td> </tr> <tr> <td>Canned chicken</td> <td>1</td> <td>1</td> <td>40</td> <td>63</td> </tr> <tr> <td>Canned vegetables</td> <td>0.8</td> <td>1</td> <td>32</td> <td>22</td> </tr> <tr> <td>Olive oil</td> <td>0.5</td> <td>0.6</td> <td>20</td> <td>177</td> </tr> <tr> <td>Canned Tuna</td> <td>1.62</td> <td>1.95</td> <td>65</td> <td>121</td> </tr> <tr> <td>Sugar</td> <td>0.5</td> <td>0.6</td> <td>20</td> <td>80</td> </tr> <tr> <td>Zaatar dried</td> <td>0.5</td> <td>0.6</td> <td>20</td> <td>55</td> </tr> <tr> <td>Additional items Bread Syrian (4 loaves) * outside box</td> <td>12</td> <td>14</td> <td>480</td> <td>1291</td> </tr> <tr style="background-color: #F4A460;"> <td>Total</td> <td>23.32</td> <td>27.9</td> <td>933</td> <td>2128</td> </tr> </tbody> </table> <p>Alternative items: If any of the above items are not available, those can be substituted as follows: Items such as beans, canned chicken/tuna/vegetables/juice can be substituted by dried dates, Halva, Sugar. Powdered juice can be provided only if WASH conditions are suitable). Bread, if not provided in the basket, should be coordinated with local bakery support and/or replaced by biscuits/crackers.</p>	Items	Quantity in box for 5 persons for five days(Kg)	Quantity in box for 6 persons for five days(Kg)	Grams/ person/day	Kcal	Fava Beans	2.8	3.4	112	80	ChickPeas Paste/ Canned Humous	3.6	4.3	144	239	Canned chicken	1	1	40	63	Canned vegetables	0.8	1	32	22	Olive oil	0.5	0.6	20	177	Canned Tuna	1.62	1.95	65	121	Sugar	0.5	0.6	20	80	Zaatar dried	0.5	0.6	20	55	Additional items Bread Syrian (4 loaves) * outside box	12	14	480	1291	Total	23.32	27.9	933	2128	USD 30-40

1.2	Monthly food assistance for the assessed food insecure people through appropriate modalities.	5,000,000	<p>Combination of the criteria under the points below to determine the most food insecure.</p> <ul style="list-style-type: none"> Household demographic indicators Vulnerability status of household members Displacements status of households Accommodation status of the household Access to income. Food Security indicators including https://resource.s.vam.wfp.org/CARI 	<ul style="list-style-type: none"> At a minimum 70% of the daily kcal intake which is around 1550 Kcal per person per day in a monthly family food ration. Calculation will be made on a reference family size of 5/6 for a period of 30 days. The monthly food ration can be provided through various modalities such as in kind, cash or voucher as long as the feasibility of that modality is established. The proposed percentage breakdown of the ration is 59% of energy to be contributed by carbohydrates, 12% from proteins and 29% from fat. The sector strongly recommends the feeding period of <u>30 days</u> and a <u>minimum</u> of 8 distributions (8 months out of 12 months) to the assessed same food insecure households. It is assumed from the Food Security Assessment at household level that in general food insecure households will be able to meet the rest of the kcal/person/day from their own sources where livelihood opportunities are available. However, the sector encourages partners to contextualize this position along two areas (1) by levels of food insecurity at household level and (2) by access and severity of needs. (See here for more details). Households that are severely food insecure or are in hard to reach/newly accessible locations and cannot meet the full daily calorie intake will be provided food baskets for full 2100 kcal person/per day. Please see annex 1 for further details on this. The sample baskets are for a family size of 5/6. See here for more details on household size. When designing your organization's basket please take necessary steps to harmonize it with other organizations so that locally there <u>are no tensions/competition among communities and a sustained monthly food assistance can be provided.</u> <table border="1" data-bbox="798 544 1648 722"> <thead> <tr> <th>Macronutrients/Food category</th> <th>Major food items in Syria contributing to the macronutrients</th> </tr> </thead> <tbody> <tr> <td>Carbohydrates</td> <td>Rice, Pasta, Wheat Flour (fortified), Bulger Wheat</td> </tr> <tr> <td>Protein</td> <td>Beans/green peas, Lentils, Split Lentils ,Chickpeas Canned meat, Fish</td> </tr> <tr> <td>Fat</td> <td>Oil, Ghee</td> </tr> <tr> <td>Condiments/Misc</td> <td>Tea, Tahini, Thyme, Salt (iodized)</td> </tr> </tbody> </table> <p>Below are sample baskets for a month for a family of 5/6. Please use http://www.nutval.net/ or NUTVAL 4.1 to calculate food basket based on the common items provided in Syria Food Security Sector members with every effort made to harmonize with other organizations, especially in the same operational areas.</p> <p>Sample Basket One for meeting a minimum of 70% daily kcal intake Methodology: Inclusion of food items most commonly used by operational partners across the Syria response. 1.3

Supplementary food assistance (top up) to Extremely Food Insecure Households or **Persons with Specific Needs (PSN)** through appropriate modalities (complementary to 1.1 and 1.2 and inter linkage with nutrition sector).

1,000,000

Among the food insecure people specially children under 02 for Blanket Supplementary Feeding (nutrition sector), children, Pregnant and Lactating Women, Elderly and Persons with Disabilities

To meet kcal deficit from the monthly food rations and where micro nutrients is the entry point, the sector recommends that households with extreme food insecurities or households with Persons with Specific Needs such as children, Pregnant and Lactating Women, Persons with Disabilities and vulnerable elderly receive access to supplementary food assistance.

To prevent acute malnutrition and micronutrient deficiencies in children, families with children between the ages of 6 and 23 months, receiving GFD, will receive a monthly ration of the Lipid based Nutrient Supplements in coordination with the nutrition sector.

Ideally, the top up basket can be provided to households on GFA by cash or voucher. Coordination and collaboration between actors providing in kind and cash-based response (even for multipurpose cash) is critical for this response package.

Pregnant and lactating women top up to access Fresh Food (dairy products, vegetables, fruits, chicken, meat, fish). The PLW reference basket is calculated based on the micro-nutrient gap between a pregnant woman's requirement for key micronutrients and those provided by the GFA, not kcals. Below is a reference basket only, to refer for designing a PLW top up basket and/or to determine value of the cash/voucher.

Food Items			Essential Micronutrients					
Commodity	Monthly Quantity (Kg)	Value (SYP)	Iron (mg/day)	Calcium (mg/day)	Vitamin C (mg/day)	Folic Acid (mcg/day)	Vitamin A (mg/day)	Zinc (mg/day)
Yogurt	1.8	983	0.03	72.6	0.3	4.2		

USD 30 – 40 but needs price monitoring. See [here](#) for guidance on cash transfer values.

Cheese	1	858	0.12	185	-	0	
Dates	2	858	0.6	42.6	0	9.99	0.29
Tomato	3	468	0.27	10	13.7	15	0.17
Parsley	2.5	877	5.16	114.9	110.7	126.6	0.89
Tuna	2	2047	0.43	2.66	-	3	0.31
Ground Beef	0.5	1209	0.25	2.65	0	2.98	0.566
Total	9.5	7300	6.86	430.41	124.7	161.77	2.226
<i>Daily PLW Requirement</i>			27	1,000	85	600-800	600
<i>Gap after GFD</i>			14.1	866	76	600-800	0
<i>% of Gap covered by Voucher</i>			49	50	100	27	100

Sample items to top up baskets in general (one month) for extreme food insecure of other PSN categories. Below is a reference basket only, to refer for designing a top up basket and/or to determine value of the cash/voucher.

Item	KG	Gm/Person/Day	Kcal
Yogurt	3	20	12.2
Apple	2.7	16	8.32
Tomato	2.7	18	3.24
Chicken	1.95	13	18.59
Bread	14.55	97	353.08
Bulgur	4	27	93.33333333
Total	24.9	164	488.8

1..4	Provision of flour or bread directly to households or to bakeries	1,000,000	Crisis affected people who are not able to access subsidized or free bread.	Total raw commodity inputs is based on bakery production capacity - one (1) MT fortified wheat flour requires 400g yeast, In case, support to bakery staff is needed then an example from WFP is provided below: In the first three months, workers will be supported with a voucher which equals a GFD ration. USD 70 is the average of all governorates for such a voucher including beneficiaries' transport costs.	USD 70 but requires price monitoring.
