### Projects and partners by governorate

West Bank Humanitarian Programme Cycle 2017 - FSS Humanitarian Response Plan

#### How to use this matrix:

The matrix is meant as a tool to improve coordination among organizations working in food security in Palestine. Each table represents one governorate. For every governorate it is shown which partners (rows) are active in which working field/activity type (columns). Thus, each organisation can quickly look up which other organisations are active in the same field in the same governorate. The numbers indicate the amount of projects per partner in the working field in the respective governorate.

#### Additional explanations:

Data used in this paper were collected by the FSS in parallel to the HRP process at the end of 2016. It was directly submitted by the partners. All projects are planned projects, while actual implementation depends on funding levels. Please turn around for more information on food security and socio-economic background data, as well as budget and beneficiary distribution.

Food Assistance includes food in Kind and e-vouchers modalities.
