

# MYANMAR: Food Security Sector Partners' Presence Map

January to May 2021

This map indicates the areas where Food Security Sector (FSS) partners' projects are being implemented at the moment. It is based on the FSS 5Ws matrix, hence it reflects only the activities of the organizations that have agreed to share their 5Ws information with the sector. For those actors who are not listed and who are currently conducting food security activities, we encourage them to share the matrix with the FSS. Since projects can finish or start at any time during the year, this mapping will be shared regularly in order to have a realistic and up-to-date version of the current situation.
