Nutrition Beneficiary Referral

Key challenges

Key Challenges

❑ **Low Referral of households with SAM and MAM under-fives and PLWs to humanitarian food and cash assistance**

❑ **Duplication/ overlaps in assistance :Nutrition to Relief referrals data duplicate.**

❑ **Delay of Nutrition Beneficiary registration into Scope system since 31st March,2023 due to FLA and new TSFP and Relief partners selection process.**

❑ **In adequate resources: like Scope Equipment was the main challenges of not enrolled all the nutrition beneficiaries referred into the WFP relief partners.**

❑ **Capacity related challenges: CP capacities and meeting high quality standard program implementation was also another challenges**
