5 AOB

Preliminary findings from Balcad Floods RNA

Following the break of the Hawadley reservoir in Balcad district, a multi-cluster assessment was conducted with the following findings:

- A total of 25 villages were affected by the floods however, only 7 sites/villages were assessed due to security constraints.
- The assessment found that a total of 5,970 families, comprising 35,820 individuals, have been displaced as a result of the floods.
- 65% of the displaced families have been settled in IDP camps such as Alla-amin, Daryeel, Gargaar 1, and Gargaar 2.
- Approximately 2,221 livestock heads were reported to have died or been lost during the flood disaster.
- 27,373 hectares of ready-to-harvest farmland were affected by the floods.
- The situation of the IDPs is critical and urgently need immediate food assistance.
- Over 76 per cent of assessed families were depended on farming as main source of livelihood.

FSC to send request to partners on stock and capacity status in preparedness of El-Nino effect.

FSC to share the final report of the Balacad Floods RNA.

Recommendations

- Scale up food assistance/cash-based interventions across all displacement affected locations to bridge the gap.
- Provide vocational skills training for displaced people.
- Assistance for income generation activities is highly needed.

El-Nino Preparedness Planning

- A joint Jubaland and Hirshabelle State early warning presentation by FAO was made on 19 July 2023.
- Need to develop a cluster preparedness plan for the anticipated El-Nino effect.
- The FSC will request partners to share their plans, capacity and stocks.
- A working committee will be established to guide and facilitate the process.
- The FSC is requesting FAO technical team to produce geographic vulnerability maps by scenarios.
- Resilience-related and durable solutions are highly advocated for to mitigate the impact of the El-Nino effect.

Resilience Mapping and ad-hoc brainstorming session

Following the increasing needs by both beneficiaries and local authorities on implementation of more resilience-based activities, the FSC Coordinator suggested to the members to have an ad-hoc brainstorm session to further discuss type of activities relevant to the communities as per the different contexts however no interest on this was shown by the members to have the proposed session.

Closing & adjournment:

The meeting ended by 11:33am and it was adjourned to **Tuesday, 12th September 2023.**

Partners were also reminded to join their respective regional coordination meetings;

Hiran RCM: 5th September 2023 (2:00PM-3:30PM)
