**Gaza Strip Summary**

1. **0.15m Food insecure in need of support**
2. **1.05m Beneficiaries targeted**
3. **22 Partners working in food security sector**

**Project Type Funding Gaza Strip**

- **$241m requested through the HPC**
- **$133 per capita investment planned**

**Palestine Overall**

- **$241m combined cash and livelihood**
- **$180.8m food assistance**
- **$322m budget appeal**

**Beneficiary and Budget Distribution**

- **0.15% of the appeal for coordination costs**

**Data Sources**

- Food Security Sector (FSS), Palestinian Central Bureau of Statistics (PCBS), WFP, OCHA

**Website**

- www.fss.org/countries/palestine

**Additional Explanations**

- All figures related to programme response are planned and not actual figures. The final project response depends on funding levels. Programme response figures were collected by the FSS in parallel to the HRP process at the end of 2015. Food insecurity and resilience data is drawn from the SEFSec survey 2014. Population projections are provided for 2016 by PCBS. Unemployment and wage data are also collected by PCBS for 2014.

- Map shading and classes are based on Palestine overall (West Bank and Gaza Strip), thus some classes may appear empty. Further, to improve graphical representation, classes are not always equidistant. The grey circles in the legend refer to the size of the coloured pie charts in the respective map.

- Please turn around for more details on activities and implementing partners in the Gaza Strip.

## Humanitarian Programme Cycle 2016

### FSS Humanitarian Response Plan

**Version:** 18 January 2016

**Contact:** marco.ferloni@foodsecuritycluster.net, hosne.barakat@foodsecuritycluster.net, anas.musallam@foodsecuritycluster.net

## Additional Explanations:

Data used in this matrix was collected by the FSS in parallel to the HRP process at the end of 2015. It was directly submitted by the partners. All projects are planned projects, actual implementation depends on funding levels.

Please turn around for more information on food security and socio-economic background data, as well as budget and beneficiary distribution.

## How to use this:

This matrix is meant as tool to improve coordination between organizations working in food security in Palestine. Each table represents one governorate. For every governorate it is shown which partners (columns) are active in each working field/activity type (rows). Thus each organisation can quickly look up which other organisations are active in the same field in the same governorate. Partners active in the governorate are highlighted. The numbers indicate the amount of projects per partner in the working field in the respective governorate. The "All" field summarizes the activities for all partners per activity type in the governorate.

## Partners Active per Activity Type
